

InFocus
Collaboration That Works

Communicate and Collaborate Better than Ever
The giant touch PC to present, annotate, and collaborate
with people in the room and around the world

mondopad

Giant Touch Tablet for Your Conference Room or Classroom

Present, annotate and collaborate on a giant tablet with meeting participants in the room and around the world.

An InFocus® Mondopad™ puts everything you need to visually present, capture and share ideas at your fingertips – all beautifully integrated into a single, cost-effective device.

Mondopad streamlines meetings and allows people to communicate clearly. You'll bridge communication gaps, save time and money on travel, and never look back.

Key Features

- Multi-touch high definition display in 57", 70" and 80" sizes
- Flexible and expandable with built-in Windows PC
- Digital interactive whiteboard and document annotation
- Business-class video conferencing
- Share, view and control from your tablet or smartphone
- Full copy of Microsoft® Office ensures file compatibility
- Removable PC is interchangeable between all models

Designed for Multi-touch

Mondopad's natural, touch interface changes the way people interact with information, collaborate and connect. Meetings are more engaging, content is more immersive, and audiences are more involved.

The Mondopad features edge-to-edge 5-point multi-touch capabilities that provide smooth, quick and accurate performance for all of its presentation, annotation and collaboration applications.

Video Connect to the World

Add Mondopad as a SIP endpoint on your video conference server or service, or install your video conferencing desktop client onto Mondopad, just like you would a PC.

If you don't have a video conferencing system, we have affordable InFocus 121 Video Calling plans and ConX Group video meeting rooms.

Industry standard collaboration tools like GoToMeeting®, WebEx™, Microsoft Lync™ and Adobe® Connect™ run seamlessly on a Mondopad. It's as easy as downloading an app.

Upgrade Your Conference Room

The Mondopad combines a powerful and flexible PC with a giant touch display to create an elegant and cost effective collaboration solution.

- Expandable to meet your requirements
- Built around industry standards and leading technologies from Intel and Microsoft
- Easy to upgrade to the latest software and tools
- Securely monitor and manage from anywhere

Full HD 1080p (1920 x 1080)

Whiteboard Wizard

The Mondopad's whiteboard and collaboration apps make it easy to brainstorm and capture and share the ideas.

- A complete set of writing and drawing tools, pens, highlighters, shapes and lines are at your command
- Whiteboard drawings can be collected, saved and emailed to meeting participant right from the Mondopad
- Paste your backgrounds and images onto a whiteboard session, such as a grid, flowchart, or other template

Familiar Applications Optimized for Touch

Sharing documents and visuals during a meeting from any device is amazingly easy with the Mondopad's intuitive folder structure and 3rd party app multitasking.

- Add, remove and launch documents from the Mondopad's View/Share folder, which anyone in the meeting can access
- Quickly switch between multiple Windows apps and the Mondopad app
- Use all of the office documents (PowerPoint, Word, Excel, PDF, JPGs and more) that you use every day -- all optimized for touch

Never Lose An Idea

Use the whiteboard's writing and drawing tools to take notes on what is being presented on screen. This highly-visual medium allows your teams to communicate more effectively, collaborate in real time, and never lose an idea.

- Circle or highlight key information on PPT slides, spreadsheets, design comps, web pages, videos and even on shared content in a video meeting
- Identify information on-screen to help remote participants follow along
- Capture and share the notes with everyone in the meeting right from the Mondopad

Connect, Share, View & Control Content from Any Device

You and your colleagues can securely connect, share and collaborate with anyone, anywhere – making your meetings more collaborative, productive and sustainable.

- Securely connect Mondopad to your network via its built-in WiFi so any authorized user of your network can share, view and control their visuals from their PC, tablet or smartphone
- Mondopad's WiFi also creates a wireless access point so guests in the room can easily deliver documents to Mondopad or access the Internet without connecting to the organization's private network
- Remote participants see what's on the Mondopad via a web page served by the Mondopad

“The Mondopad's aim is to drain the boring out of business meetings.”
