Safety Warning

Placement

Do not place the unit on an unstable cart, stand, tripod, bracket, table, or shelf.
Do not expose the unit to direct sunlight and other sources of heat.
Do not put the unit near appliances that generate magnetic fields.
Do not put any liquid near or on the unit, make sure do not spill any liquid inside the unit.
Do not put heavy objects on top of the unit.

Power Supply

Check that the unit's operating voltage is identical with your local power supply.
Please unplug power supply and antenna plug when the weather is thunder-storm or lightning.
Please unplug power supply, when there is nobody home or the unit will be in idle for a long time.
Please keep power cable from physical or mechanical damage.
Please use the original power cable from the accessory bag, don't modify or lengthen it.
Please check and ensure AC source is connected with the ground.
This power cable comes with the device exclusively for this device only.

LED Screen

Never use any other hard or sharp object to replace the touch pen.
Unplug the power cable before cleaning.
Clean the screen with a soft, dustless and dry cloth.
Never use water or the spray type detergent to clean the unit.
For deep clean, please contact an authorized service center.
To extend the panel life and display performance, do not keep the panel at high brightness for long periods of time.

Temperature

Do not place the unit near or over a radiator or a heater.
If your unit is suddenly moved from a cold to a warm place, please unplug the power cable and do not turn it on at least 2 hours, making sure the moisture inside the unit is all evaporated.
Normal operating temperature is 0 ~ 40 C .

Humidity

Do not expose the unit in rain, or place in high humidity area.
Please make sure indoor environment is dry and cool. Normal operating humidity is 10%~90%RH.

Ventilation

Please put the unit in a well ventilated place, so the heating can be released easily.
Ensure that the unit has enough space for ventilation. Space requirement: left, right and back >10cm, top > 20cm.

Earphone

Extended time periods listening to loud sounds can be damaging to your ears.
Before using earphone, please turn down the volume in advance.

Standby

It will enter standby mode but not turn off the unit after press the standby key.

Battery

Please make sure the battery get proper disposal or recycle after using.
Please keep the battery away from kids and don't throw the battery into fire.

Notes for Cleaning

There are vents on back cover, please do not use any liquid or spray directly during cleaning.

Power Switch Status Signs

"I" means power on, "O" means power off.

Notes for Maintenance

This machine can only be maintained by certified engineer.

Prepare to Install

1. Control Panel

Items	Function description
①	Tap to enter EnergySaving function Press at least 2 seconds to enter standby mode
②	HOME button: displays home page
③	Return button: return to previous level menu
④	Menu button: brings up function menu
⑤	Volume down button: lowers volume
⑥	Volume up button: raises volume
⑦ USB	USB interface to Android & PC system
⑧ Remote control signal receiver	InfraRed receive port for remote control. Do not block or obstruct.

2. Connector Panel

Items	Function description
① HDMI OUT	Displays whatever is on the screen, including Android annotation.
② USB	Connect USB devices such as mobile hard disk, U disk, USB keyboard and mouse, USB drives, etc.
③ HDMI IN	HDMI input
④ TOUCH	Touch signal output for connection to external computer
⑤ DP	DisplayPort input
⑥ AUDIO IN	Line level audio input
⑦ VGA IN	VGA input
⑧ AV IN	Composite video + audio input - 3.5mm 4-conductor
⑨ COAX OUT	Digital audio output - "RCA" connector
⑩ RS-232	Control interface
⑪ AUDIO OUT	Output to an external amplifier and speaker
⑫ LAN	RJ-45 connector
⑬ AC SWITCH	Master power switch
⑭ AC IN	AC power input

HDMI = High-definition multimedia interface

3. Remote Control

1) Remote control button instruction

Detailed Function Description

1		Power on/off
2		Mute audio
3		(Built-in computer Windows key
4	Space	Built-in computer Space key
5	Alt+Tab	Built-in computer spacebar Alt + Tab
6	Alt+F4	Built-in computer program window close button
7	Numeric keys	Numeric input keys
8	Display	Shows the name of the currently selected input and its resolution
9		No function at this time
10	Input	Input signal source select
11	Home	Android system Home
12	Menu	Settings menu
13	Red	Disables touch and control panel functions
14	Green	Disables control panel functions
15	Yellow	Disables touch function
16	Blue	Activates zoom function, use buttons to adjust
17		Blanks the screen
18		Backspace key
19		Up key
20		Left key
21		Right key
22		Down key
23	Enter	Confirmation key
24		Starts annotation app
25	Back	Return key
26	PgUp	Built-in computer page (previous page)
27	PgDn	Built-in computer page (next page)
28	CH.+ \ CH-	No function at this time
29	VOL+ \ VOL-	Volume raise/lower
30	F1-F12	Built-in computer F1 - F12 function keys

NOTE: If there is no built-in computer all related function keys will have no operating function.

2) Remote Control Instruction

Install Batteries

- (1) Open battery compartment cover on the back of the remote control
- (2) Install AAA type battery with correct polarity. Do not mix using old and new batteries
- (3) After batteries are installed, replace the cover

Range of remote control

The remote control will operate normally within the range of 8 m (25'), and within 30 degrees left and right from the remote control receiver.

Always dispose of batteries in an environmentally friendly manner.

Only use the specified battery type. Using another type can damage the remote control and may cause the battery to burst.

Setup

 For safety reasons do not connect power until all connections are complete.

1.A. External Computer Digital Audio/Video plus Touch Connection

The best image and sound quality will be through digital connection using HDMI or DisplayPort

Android

The Android feature in Boxlight's ProColor Interactive Flat Panel Displays adds significant functionality. When delivered it includes a browser, annotation tools, a file viewer/finder, and the ability to save to cloud storage services.

Please note: the Android system and its apps are rapidly evolving. Between the date of this writing and the end of 2017 new apps may be added or existing ones removed.

Figure 1-1 Launcher interface

Click  at bottom right to open the apps directory, as shown below

Figure 1-2 Apps Directory

Sidebar

Click the  button on the left or right side of the screen (highlighted by the red circles above) to open the sidebar.

The figure below shows the sidebar on the right side. The functions of the sidebar include: Back, Home, Recent, Quick Whiteboard, Annotation tools, Crop, Freeze, and Small Tools.

Back key

Click  to return to the last operating interface.

Home key

Click  to return to the desktop.

Recent tasks

Click  to display recently tasks.

Quick Note

Click  to open Note which enables write, erase, select objects, etc. See section 3 “Note” for more details.

Annotation tools

Click  to pop out the annotation tools which allow writing and drawing on the screen.

The Annotation Tools

Screen Freeze

Click the  button to pop out the screen freezing tools - freeze + zoom is supported.

The Screen Freeze/Zoom Tools

- Zoom in. Click the  button to zoom in the current screen.
- Zoom out. Click the  button to zoom out the current screen.
- Return. Click the  button to return to the original size of the screen.
- Exit. Click the  button to exit the screen freezing.

Small tools

Click  to pop out the tool choice box, including spotlight, count down and stop watch, and air class.

Spotlight

Click the  icon to open the spotlight, as shown in Fig. 2-7-1-1. The spotlight can be used to focus attention on a specific area of the image.

Spotlight Interface

- Drag in the black area to move the spotlight.
- Click  to open the scale and alpha adjustment window shown below.

Scale adjusts the size of the spotlight.
Alpha adjusts the transparency of the masked area.

Countdown Small Tool

Click the  to open the Countdown Small Tool.

Click the “START” button to start the count down.

Click “PAUSE” to temporarily pause the count down.

Click “RESET” to return to 0:00:00.

Countdown Small Tools

Stopwatch Small Tool

Click  open the Stopwatch Small Tool. Functions include start, pause, continue the stop watch, and reset.

Figure 2-7-3-1 Stop watch

Note

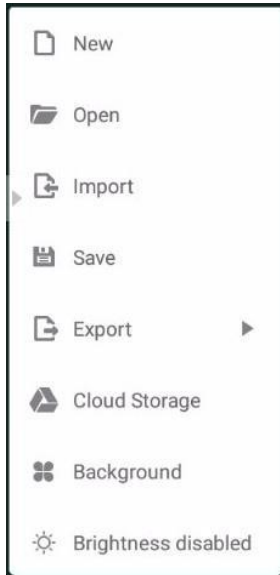

Click  to open Note.

The Note App

Note Menu

Click  to open the Note menu which provides the ability to choose the background, create/open/import/save/export files, and save to cloud storage services.

Start menu

Note Operation

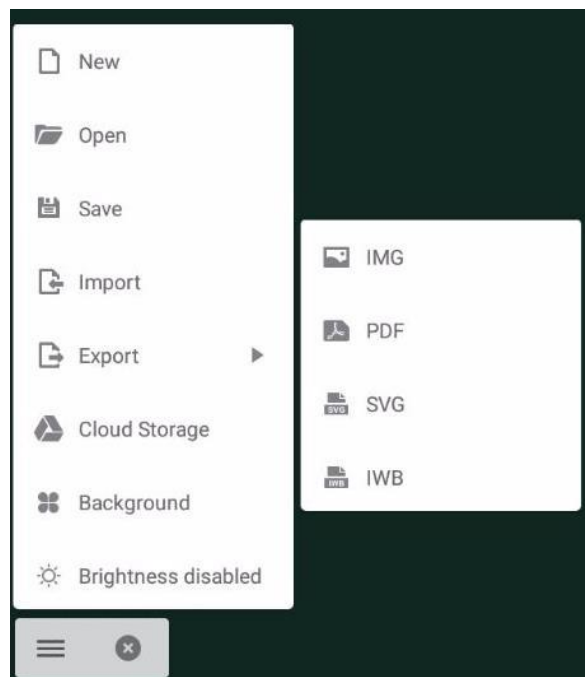

New - Click  to create a new Note file.

Open - Click  to open the file window which allows opening the native .enb format file.

Import - Click  to import a JPG file to Note.

Save - Click  to save the current document in .enb format.

Export - Click  to export the current Note to IMG, PDF, SVG, or IWB format.

Export

Cloud Storage - Click  to export and upload the current Note file to Google Drive or Microsoft OneDrive.

Background - Click  to switch the current page background color. Click any color to switch the page background.

Color Background

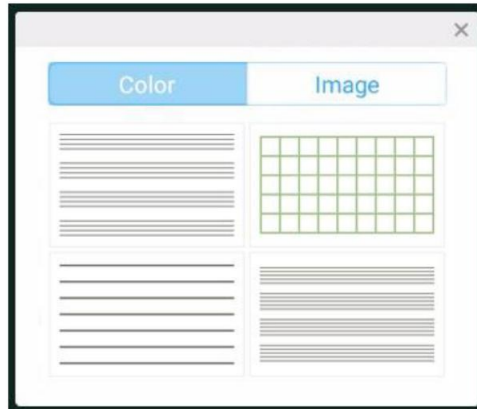

Image Background

(7) **Brightness disabled.** Click  to activate the automatic brightness adjustment, which is disabled by default.

Exit

Click  to return to the main interface.
 If the current document is not saved, the Save window will appear.
 Enter a file name to save the current document or just close the Save window.

Selection

Click  to select objects.
 Selected objects can be moved, deleted, etc.

Pen

Click  to open the pen setting window.

Pen setting menu

Pen – Included choices for pencil (default) and several brushes.

Size - Slide the size bar to set size.

Color – Choose a color on the right-hand side palette.

Eraser

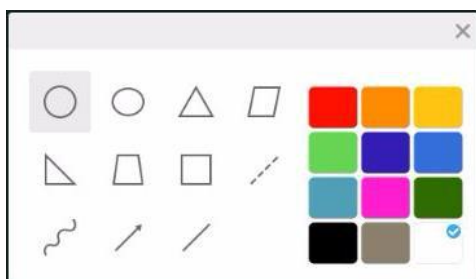

Click  to select the eraser.
Circle the object you need to erase.

Wipe screen

Click  to wipe the entire screen.

Shape

Click  open the shape window.

Shape window

Drawing board

Click  to open the drawing board.

Pen - Pencil is the default, also offers brushes and an eraser.

Palette - Select the desired color.

Color picker - Click to open the color picker. Drag the  round color picker to the desired.
