

BELKIN STORE AND CHARGE

Less hassle, more learning.

The Belkin Store and Charge makes it easy to deploy and support tablets and laptops in the classroom.

Unlike some charging stations that support a single tablet brand or make it difficult to access devices quickly and easily, the Belkin Store and Charge keeps tablets, laptops, and e-readers organized, available, fully charged, and ready for use.

Designed for K–12 learning environments, the station can store and charge different kinds of devices at the same time, each with its own charging cable or adapter. And the open setup won't interfere with wireless syncing. A built-in surge protector provides protection against voltage spikes, and the built-in cable management minimizes clutter. The Belkin Store and Charge offers an elegant, accessible, and affordable mobile device management solution.

Compatible with most mobile deployments, including iPad, Samsung Galaxy, Samsung Note, Chromebook, and 11"/13" laptops, this Belkin solution makes storing and charging seamless and affordable.

Convenient access allows easy wireless syncing, labeling, and transporting from classroom to classroom or tabletop to storage location.

Integrated surge protector prevents loss from voltage spikes to keep the digital learning environment going strong.

Key Features and Benefits

- Stores and charges up to 10 devices at easy-to-reach angles
- Fits most cases up to 1.18" thick
- Fits all iPad generations, Samsung tablets, Chromebooks, e-readers, and laptops or netbooks up to 13"
- Built-in cable management minimizes tangles and clutter
- Open set-up facilitates easy access and wireless syncing
- Includes labeling space for personalization and identification
- Fits on standard AV carts for easy transport from classroom to classroom or tabletop to storage location
- Small footprint and surface mounting features allow unit to be securely attached to tables or carts
- 10 convenient surge-protected AC outlets fit most charging adapters
- \$15,000 connected equipment warranty

Less hassle, more learning.

BELKIN STORE AND CHARGE

AV cart, tablets, and cables not included.

PART NUMBER	B2B074
Dimensions	18" x 14" x 7" (L x D x H)
Capacity	Stores and charges up to 10 tablets, e-readers, or laptops
Surge Protection	Integrated metal case surge-protected power source with 10 wide-spaced outlets and ON/OFF switch
Compatibility	<ul style="list-style-type: none"> <li data-bbox="618 888 1481 926">iPad 1, 2, 3, 4, mini <li data-bbox="618 926 1481 972">Samsung Galaxy series <li data-bbox="618 972 1481 1018">Samsung Note series <li data-bbox="618 1018 1481 1064">Other tablets <li data-bbox="618 1064 1481 1110">Kindles <li data-bbox="618 1110 1481 1157">Other e-readers <li data-bbox="618 1157 1481 1203">MacBooks (up to 13") <li data-bbox="618 1203 1481 1249">Laptops and netbooks (up to 13") <li data-bbox="618 1249 1481 1295">Chromebooks
