The New Era for Printing

PRINTING SHOULD BE
SIMPLE

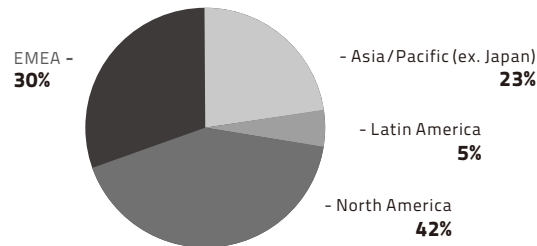

Commercial Guide 2017

Since the 1980s when the United States launched the first commercial laser printer, and with over 30 years of development, laser printers and the original/compatible consumables have developed to an industry in which annual output value reaches hundreds of billions of US dollars.

Global Printer Market Scale

The revenue of global printing hardware is about 46.87 billion dollars in 2015. The revenue of printing hardware and consumables will maintain steady in the future.

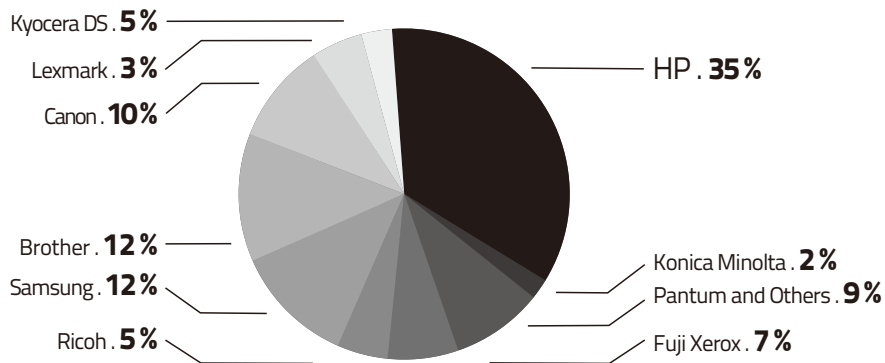

Regional Revenue Share of Printing Hardware (2015):

Source: IDC Data

In the global market, a dozen brands of various sizes are fighting for the share of A4 mono laser printer market. However, only a few large companies such as Hewlett-Packard, Lexmark, Canon, Brother and Samsung really master the core design and manufacturing technology as the structure of laser printer is very complicated, involving machinery, electronics, software, materials and many other areas. Therefore, small companies are hard to have the capability and big companies are difficult to enter this market.

Worldwide Manufactures' Market Share in Laser Printer in 2015:
