DL3™ FE FIPS Edition

Dual Two-Pass Cascading Encryption
The Ultimate in Security Made Simple

Building on the success and design of our award winning DataLocker DL3, the DataLocker DL3 FE (FIPS Edition) provides unmatched usability and security. Utilizing the sleek design and portable form factor of its predecessor, the DL3 FIPS Edition pairs blazing USB 3.0 speeds and two independent crypto processors.

Our patented design, featuring a backlit touch screen with an alphanumeric rotating keypad, allows for strong passwords and absolute security.

Optional 2-factor authentication utilizes a RFID tag in addition to your password for added protection.

Military grade encryption. Absolute convenience. Together in the palm of your hand.

Unlock with RFID token (optional RFID 2-factor authentication)
About DataLocker

DataLocker is an innovative provider of encryption solutions. DataLocker products secure systems, media, external storage and cloud services for governments, military and enterprises around the world. Headquartered in Overland Park, Kansas, DataLocker products combine superior convenience and usability with state of the art security. DataLocker is "Simply Secure." Features

Hardware based encryption – dedicated dual 256-bit AES crypto engines in XTS and CBC modes

Two-factor authentication via RFID card (optional)

All encryption, administration and authentication performed on the DL3 unit

Rapid key zeroization for secure redeployment

Self-destruct mode for protection against brute force attacks

Supports two roles: Administrator to set policy, read-only mode, and recover data and User to access data

Strong password rule (non sequential, repeating, alpha + numeric, min 8 characters)

Multi-lingual user interface (English, French, German and Spanish)

Technical Specs

Capacities: 500GB, 1TB, 1.5TB, 2TB, 128GB SSD, 256GB SSD, 512GB SSD & 960GB SSD

Standards and Certifications: TAA Compliant, RoHS Compliant, FCC and CE

Cryptographic Processes: FIPS 197 (Cert. #250) & FIPS 140-2 Validated Crypto Chip (Cert. #1472)

Dimensions: 120mm x 80mm x 23mm (L x W x D)

Weight: Approximately 9 oz.

System Compatibility: Compatible with Windows, Mac and Linux

Warranty: 1 year limited
