

GCS1808DPKITU

8-Port USB PS/2 Combo VGA DisplayPort KVM Kit

- Connect & control up to 8 USB or PS/2 computers from 1 keyboard, mouse & VGA monitor
- Kit includes adapters & cables needed to connect up to 8 computers
- Eliminates the expense of additional monitors, keyboards & mice
- Cascade up to 2 levels* to control up to 128 computers from a single console
- Easy to operate - computer selection via front panel LEDs, intuitive on-screen display & hotkeys

Connect & Control More

Expand the number of computers you can connect to and control through a single set of peripherals. Cascade and control as many as eight (8) additional IOGEAR 8-Port USB PS/2 Combo VGA KVMP Switch (GCS1808) switches for a total of 64 connected computers, all controlled from a single keyboard-monitor-mouse console. Need to control more computers? Cascade the IOGEAR 16-Port USB PS/2 Combo KVM Switch (GCS1716) to control up to 128 VGA and DisplayPort computers.

- Connect & control up to 8 USB or PS/2 computers from 1 keyboard, mouse & VGA monitor
- Kit includes adapters & cables needed to connect up to 8 computers
- Eliminates the expense of additional monitors, keyboards & mice
- Cascade up to 2 levels* to control up to 128 computers from a single console
- Easy to operate - computer selection via front panel LEDs, intuitive on-screen display & hotkeys
- An easy, efficient way to streamline an expanding server operation
- Display Emulation Technology provides the DDC support for Windows® 10
- Supports both USB and PS/2, VGA and DisplayPort(ver 1.1a) computers
- Auto Scan Mode to monitor connected computers
