

# Introducing Dell Vostro™ 1400

## DELL VOSTRO 1400

Not just a PC, but a commitment to doing more for your Small Business. Vostro notebook and desktop systems are built exclusively for small business and are ready to be customized with the features and software that you want for your small business. Dell understands your needs and provides you with products that enable you to manage your business effectively. Features include no trialware, for clean images and easy set up plus the durability you expect from Dell business solutions and wireless flexibility to keep you on the move.

## VERSATILE PERFORMANCE IN A SMALL PACKAGE

- Professional design with fingerprint resistant premium matte black finish and dark chrome accents
- Durable RoadReady™ design with Magnesium-alloy chassis, sealed keyboards and StrikeZone™ hard drive protection
- Dell MediaDirect™ with Instant Office technology for quick access to your calendar, contacts and files
- Dell's exclusive Wi-Fi Catcher™ finds Wi-Fi hotspots without opening or powering on your notebook

### OPTIONAL:

- 2.0MP Integrated Webcam for video conferencing with coworkers or business associates
- High Capacity 9-cell battery to extend your freedom from an outlet
- Built-in Dell Travel Remote Control enables you to point and click your way through your PowerPoint presentations
- Dell Wireless-N for 5 times faster throughput and 2 times the range for fewer dead spots

## DO YOU TRAVEL? TAKE THE VOSTRO 1400 WITH YOU

The Vostro 1400 is ideal for business travelers who want a lot of notebook performance without extra size or weight. Frequent travelers will appreciate the convenience of a high definition 14-inch widescreen display, enhanced wireless connectivity, worry-free durability and great Dell service and support.

## SERVICES FOR SMALL BUSINESS

3 Years Parts Only (NBD available in selected markets where we offer Dell branded client services, check with your local Dell Partner). As part of our Dell Branded services portfolio, we will soon be introducing additional offerings in the areas of remote troubleshooting and repair, automated PC maintenance, and data back-up. (Available in selected markets only).

## MAXIMISE EVERYTHING

### Energy-efficient performance from Intel. Multimedia power

Based on revolutionary Intel® Core™ microarchitecture, the breakthrough Intel® Core™2 Duo processor family is designed to provide powerful energy-efficient performance so you can do more at once without slowing down. With Intel® Core™2 Duo processor, you'll experience revolutionary performance, unbelievable system responsiveness, and energy-efficiency second to none. And, you won't have to slow down for virus scan, multiple compute intensive programs, or multimedia downloads—these processors are up to 40 percent faster with improved energy-efficiency<sup>1</sup>

<sup>1</sup>Performance measured Intel® Core™2 Duo desktop processors compared to Intel® Pentium® D processor 805 on SPECint\*\_rate\_base2000 and SPECint\*\_rate\_base2000 (2 copies). Actual performance may vary. See [www.intel.com/performance](http://www.intel.com/performance) for more information.
