Cool mist humidifier HH210E

Helps temporarily relieve dry air discomforts

Maintaining an indoor humidity level between 40-60% can reduce the survival of flu viruses on surfaces and in the air¹

- Silent technology thanks to the ultrasonic technology
- Patented Easy to fill technology makes filling as easy as watering a plant
- Variable moisture output settings allows you to control your humidity for optimum comfort
- Illuminated window and fill area indicate water level
- Continuous water flow provides soothing effect
- Cartridge to remove excess minerals in the water
- Runs for up to 24 hours per filling ²

Specifications are subject to change without notice
• HH210– 06/2010

- 1 Studies have shown that keeping indoor air at an RH level of 40-60% reduces survival of viruses on surfaces and in the air compared to lower RH levels.
- 2 Run time will depend on room size, speed setting and room humidity levels

Technical Information HH210E

EAN code	HH210E4	4022167210043
	HH210E1	4022167210111
Input Power	Watt	35
Noise level	db(A)	na
Humidification capacity	up to l/24h	8
Ideal for rooms	approx. m2	20
Hygrostat		no
Water tank		top fill
Water tank capacity	approx. l.	5
Running time (continuous)	approx. hours	24
Colour		white / grey
Supply cord length	approx. m	1,8
Weight of color box		3 kg
Dimensions of color box	L x W x H	38 x 19 x 37 cm
Master box quantity		2
Pallet quantity		tbc

Cartridge

CH-210-DEM

EAN CODE: 4022167210258
