What do business professionals want in a document scanner? The answer is: reliability, speed, and image quality. With that in mind we bring you the **Visioneer® Patriot™ H60 and H80**.

These compact desktop scanners have everything you could ask for: they are fast and efficient – accepting up to 120 mixed sized documents into its document feeder and scanning them at speeds of up to 140 images (70 pages) per minute for H60 and 176 images (88 pages) per minute for H80. They are reliable and will scan up to 10,000 pages daily. Your files may even look better than the originals, with the bundled software suite from Visioneer and other top software imaging companies outlined on the next page.

How about the ability to automatically scan documents into searchable PDF files through a high speed USB 3.0 connection? These scanners provide all that, in addition to incorporating Visioneer OneTouch® technology that allows users to easily route scanned documents to pre-determined applications, devices or

locations to eliminate multiple manual steps for employees improving office productivity.

Do you happen to have piles of Dot-Matrix tractor feed paper in need of digital archiving? Not a problem, as this scanner will fit 9.5-inch wide documents into the document feeder, will scan paper as long as 236 continuous inches, and automatically trim out the side holes from the final scanned image.

The **Visioneer® Patriot H60 / H80** is the ultimate point-and-click solution that instantly converts paper documents into high quality images that are compatible with most current business applications. With an amazingly small footprint, the scanner fits comfortably on any desk making it the perfect solution for small and large businesses that need to digitize their paper documents. Corporations from banking and accounting, legal and healthcare, to government and manufacturing industries can greatly benefit from all the professional features that are incorporated into this product.

#### New Features:

- Mechanical Deskew helps alignment when inserting paper
- “Light Jet” technology provides 45 times more light for improved image quality, resulting in sharper images and instant on
- Wide ADF for “Full Bleed” Capture when scanning color magazines full width or tractor fed paper forms with less manual preparation

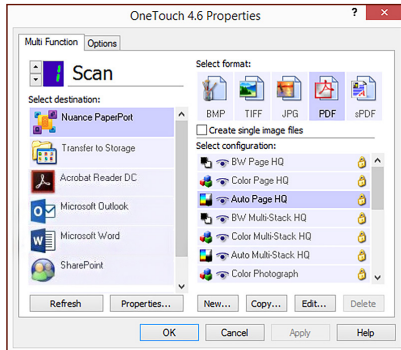

## SOFTWARE SUITE

### PC Software

#### Visioneer OneTouch®

OneTouch connects your scanner with a powerful set of customizable settings so that with one touch of a button, the scanned document is automatically sent to email, your printer, a file folder, or to one of many cloud destinations.

#### Visioneer® Acuity

Visioneer Acuity enables your scanner to instantly improve the visual clarity of the scan, plus auto-crop, auto-straighten, auto-rotate, and much more, all with the touch of a button.

#### Nuance® OmniPage® Ultimate

Nuance OmniPage Ultimate is a precise OCR and layout retention solution that quickly turns scanned documents into editable, formatted text. The text can then be used in virtually any word processing, desktop publishing or web publishing program.

#### Nuance PaperPort®

Nuance PaperPort combines the efficiency of document management and the convenience of superbly scanned documents to easily create PDF files and bring a new level of operational proficiency to your workflow.

#### Nuance Power PDF

Nuance Power PDF is the smarter PDF software choice for businesses. Combining powerful functionality, superior Microsoft® Office® support, built-in intelligence, DMS integration, and intuitive ease-of-use, Nuance Power PDF provides everything you need to create, convert, edit, assemble, and securely share PDF files for increased productivity, enhanced collaboration, and improved compliance.
