MODECOM

MODECOM MC-M4.1

MODECOM MC-M4.1 is a convenient and universal computer mouse. The design of the mouse is based on the popular MODECOM MC-M4 mouse. This wired optical mouse offers great ergonomics for working on a computer. Thanks to its USB interface and a wide range of supported operating systems, it can be used practically with any computer available on the market. At the same time, the installation of the device is very simple: all you have to do is connect mouse to one of the free USB ports, without the need to install additional drivers or software. The device is available in two color versions: black and dark gray (metallic). The MODECOM MC-M4.1 model has been improved compared to its predecessor by using better materials and implementing the latest technological solutions. MODECOM MC-M4.1 will be a perfect solution for those who are looking for ergonomic and high quality mouse, especially when spending a lot of hours working on a computer.
