

SAMSUNG Galaxy S20 FE 5G

Setting up your phone

Your device SIM card may be pre-installed.

Install your SIM card

1. Insert the SIM ejector pin into the hole on the card tray.
2. Pull out the card tray.

3. With the gold contacts facing up, place the Nano SIM card into the tray and gently press down to secure the card.
4. Insert the card tray back into the slot.

About your phone

Quick Reference Guide

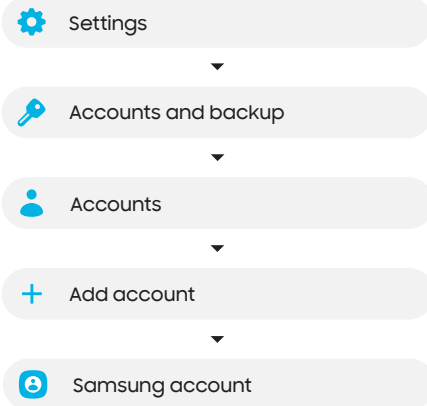

Samsung account

Get the most out of your phone by setting up your Samsung account.

You can sign in to an existing Samsung account, create an account, or sign up with an existing Google account.

Once your account is setup, you can

- Use Samsung Pay
- Schedule repairs
- Back up your phone
- Restore your phone and more

APPROVED FIRMWARE VERSIONS
This device will only operate with firmware versions that have been approved for use by your wireless carrier and the device manufacturer. If unauthorized firmware is placed on the device it will not function.

INFORMATION ABOUT SAFEGUARDING HANDSETS
We encourage customers to take appropriate measures to secure their handsets and invites them to take advantage of the features available on this handset to help secure it from theft and/or other unauthorized access and use. This handset has a locking function (e.g., user-defined codes or patterns) that can serve as a first line of defense against unauthorized use or access to stored information. Preloaded security applications that allow customers to track or locate misplaced devices can be found on several devices. Lost or stolen devices should be immediately reported to your wireless carrier so that proper measures can be taken to protect accounts. For additional information, visit your wireless carrier's Privacy Policy.

5G: Devices operating on a nationwide 5G network currently use multiband dual connectivity; and receive service via both 4G LTE network and 5G network to support their connectivity. Dual connectivity could result in instances where the phone's network indicator shows "5G" in a 5G coverage area, but the device is connected to the 4G LTE.
