

Business productivity unleashed Portégé X30

More than 30 years' experience at the forefront of laptop design has made Toshiba's Portégé X30-D the 33.8 cm (13.3") business companion built to move. The slim design doesn't come at the cost of performance, either, with all the features and functionality you need to unleash your potential. It's robust; our innovative Hybrid Air Cooling technology manages air intake to maintain a temperature optimised for unleashed performance – while rejecting dust. It's secure; Toshiba's own in-house BIOS, two-factor authentication, a slot for the optional Toshiba Slim cable lock, honeycomb magnesium chassis, and extensive testing to MIL STD 810G protects your physical and digital investment. It's innovative; in-cell touch technology responds to finger input, with exceptional visual quality from a FHD non-glare screen and enlarged keyboard design. And it's powerful, too; the latest Intel®Core™ U Series processors unleash your working potential, while twin USB Type-C ports supporting Thunderbolt 3 for power, docks and adapters ensure responsive, flexible connectivity wherever you're working.

Ultra-thin:
15.9mm

Battery life:
18.5hrs

Ultra lightweight:
1.05kg
