Upgrade and Warranty

Please note that certain components preinstalled in the product may be upgradable or replaceable by user’s request. To learn more about upgrade limitation, please refer to the specifications in the User’s Manual. For any further information about the product users purchased, please contact the local dealer. Do not attempt to upgrade or replace any component of the product if you are not an authorized dealer or service center, since it may cause the warranty void. It is strongly recommended that you contact the authorized dealer or service center for any upgrade or replace service.

Acquisition of Replaceable Parts

Please be noticed that the acquisition of replaceable parts (or compatible ones) of the product users purchased in certain countries or territories may be fulfilled by the manufacturer within 5 years at most since the product has been discontinued, depending on the official regulations declared at the time. Please contact the manufacturer via http://support.msi.com/ for the detailed information about the acquisition of spare parts.

Technical Support

If a problem arises with your system and no solution can be obtained from the user’s manual, please contact your place of purchase or local distributor. Alternatively, please try the following help resources for further guidance.

- Visit the MSI website for technical guide, BIOS updates, driver updates and other information via http://www.msi.com/service/download/
- Contact our technical staff via http://support.msi.com/

Green Product Features

- Reduced energy consumption during use and stand-by
- Limited use of substances harmful to the environment and health
- Easily dismantled and recycled
- Reduced use of natural resources by encouraging recycling
- Extended product lifetime through easy upgrades
- Reduced solid waste production through take-back policy
Environmental Policy

- The product has been designed to enable proper reuse of parts and recycling and should not be thrown away at its end of life.
- Users should contact the local authorized point of collection for recycling and disposing of their end-of-life products.
- Visit the MSI website and locate a nearby distributor for further recycling information.
- Users may also reach us at cso@msi.com for information regarding proper Disposal, Take-back, Recycling, and Disassembly of MSI products.

Chemical Substances Information

In compliance with chemical substances regulations, such as the EU REACH Regulation (Regulation EC No. 1907/2006 of the European Parliament and the Council), MSI provides the information of chemical substances in products at: http://www.msi.com/html/popup/csr/evmtprtt_pcm.html

Battery Information

European Union:
Batteries, battery packs, and accumulators should not be disposed of as unsorted household waste. Please use the public collection system to return, recycle, or treat them in compliance with the local regulations.

Taiwan:
For better environmental protection, waste batteries should be collected separately for recycling or special disposal.

California, USA:
The button cell battery may contain perchlorate material and requires special handling when recycled or disposed of in California.
For further information please visit: http://www.dtsc.ca.gov/hazardouswaste/perchlorate/

Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer.
Safety Instructions

Read the safety instructions carefully and thoroughly. All cautions and warnings on the equipment or user’s manual should be noted.

Keep the User’s Guide that comes with the package for future reference.

Keep this equipment away from humidity and high temperature.

Lay this equipment on a reliable flat surface before setting it up.

- Make sure that the power voltage is within its safety range and has been adjusted properly to the value of 100~240V before connecting the equipment to the power outlet. Do not disable the protective earth pin from the plug. The equipment must be connected to an earthed mains socket-outlet.
- Always unplug the AC power cord before installing any add-on card or module to the equipment.
- Always disconnect the AC power cord or switch the wall socket off if the equipment would be left unused for a certain time to achieve zero energy consumption.

The ventilator on the enclosure is used for air convection and to prevent the equipment from overheating. Do not cover the ventilator.

Do not leave the equipment in an unconditioned environment with a storage temperature above 60°C (140°F) or below 0°C (32°F), which may damage the equipment.

**NOTE:** The maximum operating temperature is around 40°C.
Never pour any liquid into the opening that could damage or cause electrical shock.

Place the power cord in a way that people are unlikely to step on it. Do not place anything on the power cord.

When installing the coaxial cable to the TV Tuner, it is necessary to ensure that the metal shield is reliably connected to protective earthing system of the building.

Cable distribution system should be grounded (earthed) in accordance with ANSI/NFPA 70, the National Electrical Code (NEC), in particular Section 820.93, Grounding of Outer Conductive Shield of a Coaxial Cable.

Always keep the strong magnetic or electrical objects away from the equipment.

If any of the following situations arises, get the equipment checked by service personnel:

- The power cord or plug is damaged.
- Liquid has penetrated into the equipment.
- The equipment has been exposed to moisture.
- The equipment does not work well or you can not get it work according to user’s manual.
- The equipment has dropped and damaged.
- The equipment has obvious sign of breakage.

1. The optical storage devices are classified as CLASS 1 LASER PRODUCT. Use of controls or adjustments or performance of procedures other than those specified is prohibited.
2. Do not touch the lens inside the drive.
CE Conformity

Hereby, Micro-Star International CO., LTD declares that this device is in compliance with the essential safety requirements and other relevant provisions set out in the European Directive.

FCC-B Radio Frequency Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the measures listed below:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Notice 1
The changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Notice 2
Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.

VOIR LA NOTICE D’INSTALLATION AVANT DE RACCORDER AU RESEAU.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.
WEEE Statement

(English) Under the European Union (“EU”) Directive on Waste Electrical and Electronic Equipment, Directive 2002/96/EC, which takes effect on August 13, 2005, products of “electrical and electronic equipment” cannot be discarded as municipal waste anymore and manufacturers of covered electronic equipment will be obligated to take back such products at the end of their useful life.

(French) Au sujet de la directive européenne (EU) relative aux déchets des équipement électriques et électroniques, directive 2002/96/EC, prenant effet le 13 août 2005, que les produits électriques et électroniques ne peuvent être déposés dans les décharges ou tout simplement mis à la poubelle. Les fabricants de ces équipements seront obligés de récupérer certains produits en fin de vie.

(Spanish) Bajo la directiva 2002/96/EC de la Unión Europea en materia de desechos y/o equipos electrónicos, con fecha de rigor desde el 13 de agosto de 2005, los productos clasificados como “eléctricos y equipos electrónicos” no pueden ser depositados en los contenedores habituales de su municipio, los fabricantes de equipos electrónicos, están obligados a hacerse cargo de dichos productos al termino de su período de vida.

(Russian) В соответствии с директивой Европейского Союза (EC) по предотвращению загрязнения окружающей среды использованным электрическим и электронным оборудованием (директива WEEE 2002/96/EC), вступающей в силу 13 августа 2005 года, изделия, относящиеся к электрическому и электронному оборудованию, не могут рассматриваться как бытовой мусор, поэтому производители вышеперечисленного электронного оборудования обязаны принимать его для переработки по окончании срока службы.

(Greek) Σύμφωνα με την Οδηγία 2002/96/ΕΚ της Ευρωπαϊκής Ένωσης («ΕΕ») περί Απόρριψης Ηλεκτρικού και Ηλεκτρονικού Εξοπλισμού (WEEE), η οποία λαμβάνει ισχύ στις 13 Αυγούστου 2005, τα προϊόντα «ηλεκτρικού και ηλεκτρονικού εξοπλισμού» δεν είναι δυνατόν να απορριφθούν πλέον ως κοινά απορρίμματα και οι κατασκευαστές κεκαλυμμένου ηλεκτρονικού εξοπλισμού είναι υποχρεωμένοι να πάρουν πίσω αυτά τα προϊόντα στο τέλος της ωφέλιμης ζωής τους.

(Polish) Zgodnie z Dyrektywą Unii Europejskiej ("UE") dotyczącą odpadów produktów elektrycznych i elektronicznych (Dyrektywa 2002/96/EC), która wchodzi w życie 13 sierpnia 2005, tzw. "produkty oraz wyposażenie elektryczne i elektroniczne " nie mogą być traktowane jako śmieci komunalne, tak więc producenci tych produktów będą zobowiązani do odbierania ich w momencie gdy produkt jest wycofywany z użycia.

(Czech) Podle směrnice Evropské unie ("EU") o likvidaci elektrických a elektronických výrobků 2002/96/EC platné od 13. srpna 2005 je zakázáno likvidovat "elektrické a elektronické výrobky" v běžném komunálním odpadu a výrobcí elektronických výrobků, na které se tato směrnice vztahuje, budou povinni odebrat takové výrobky zpět po skončení jejich životnosti.

(Traditional Chinese) 歐盟已制訂有關廢電機電子設備法令，亦即自2005年8月13日生效的2002/96/EC，明文規定「電機電子設備產品」不可再以都市廢棄物處理，且所有相關電子設備製造商，均須在產品使用壽命結束後進行回收。

(Simplified Chinese) 欧盟已制订有关废电机电子设备法令，亦即自2005年8月13日生效的2002/96/EC，明文规定「电机电子设备产品」不可再以都市废弃物处理，且所有相关电子设备制造商，均须在产品使用寿命结束后进行回收。

(Japanese) 2005年8月13日以降にEU加盟国を流通する電気・電子製品にはWEEE指令によりゴミ箱に×印のリサイクルマークの表示が義務づけられており、廃棄物として捨てることの禁止とリサイクルが義務づけられています。

(Korean) 2005년 8월 13일자로 시행된 폐전기전자제품에 대한 유럽연합("EU") 지침, 지침 2002/96/EC에 의거하여, "전기전자제품"은 일반 쓰레기로 폐기할 수 없으며 제품의 수명이 다하면 해당 전자제품의 재조합체가 이러한 제품을 회수할 책임이 있습니다。

(Vietnamese) Theo Hướng dẫn của Liên minh Châu Âu ("EU") về Thiết bị điện & điện tử đã qua sử dụng, Hướng dẫn 2002/96/EC, vốn đã có hiệu lực vào ngày 13/8/2005, các sản phẩm thuộc “thiết bị điện và điện tử” sẽ không còn được xử lý như là rác thải đối với người dùng và các nhà sản xuất thiết bị điện tử tuân thủ hướng dẫn sẽ phải chịu trách nhiệm này với cơ quan chức năng.

(Thai) ภายใต้ข้อกำหนดของสหภาพยุโรป ("EU") เกี่ยวกับของเสียจากอุปกรณ์ไฟฟ้าและอุปกรณ์อิเล็กทรอนิกส์ ซึ่งมีผลบังคับใช้ตั้งแต่วันที่ 13 สิงหาคม 2005 ผู้ใช้ไม่สามารถทิ้งอุปกรณ์เหล่านี้ไปเป็นของเสียทั่วไปได้ และผู้ผลิตอุปกรณ์เหล่านี้จะต้องรับผิดชอบในการรับผิดชอบต่อการทิ้งของที่มีการทิ้งอุปกรณ์เหล่านั้นไปแล้วส่งสู่ผู้ใช้ในด้านอุปกรณ์อิเล็กทรอนิกส์.
Wind Top Series

Preface

(Indonesia) (Bahasa Indonesia) Sesuai dengan Regulasi Uni Eropa ("UE") perihal WEEE (Limbah Peralatan Listrik dan Elektronik), Directive 2002/96/EC, yang berlaku sejak 13, 2005, produk "peralatan listrik dan elektronik" tidak lagi dapat dibuang sebagai sampah umum dan fabrik peralatan elektronik diwajibkan untuk mengambil kembali produk tersebut pada saat masa pakainya habis.

(Portuguese) (Português) De acordo com a Directiva 2002/96/EC de Resíduos de Equipamentos Eléctricos e Electrónicos da União Europeia (UE), efectiva desde o 13 de Agosto do ano 2005, os produtos de "equipamento eléctrico e electrónico" não podem ser descartados como resíduo municipal e os fabricantes do equipamento electrónico sujeitos a esta legislação estarão obrigados a recolher estes produtos ao finalizar sua vida útil.

(Swedish) (Svenska) Under Europeiska unionens ("EU") Weee-direktiv (Waste Electrical and Electronic Equipment), Direktiv 2002/96/EC, vilket trädde i kraft 13 augusti, 2005, kan inte produkter från "elektriska och elektroniska utrustningar" kastas i den vanliga hushållssoporna längre och tillverkare av inbyggd elektronisk utrustning kommer att tvingas att ta tillbaka sådana produkter när de är förbrukade.

(Slovak) (Slovenčina) Na základe smernice Európskej únie ("EU") o elektrických a elektronických zariadeniach číslo 2002/96/ES, ktorá vstúpila do platnosti 13. augusta 2005, výrobky, ktorými sú "elektrické a elektronické zariadenia" nesmú byť zneškodňované spolu s komunálnym odpadom a výrobcovia patričných elektronických zariadení sú povinní takéto výrobky na konci životnosti prevziať naspäť.

(Slovenian) (Slovenščina) Skladno z določili direktive Evropske unije ("EU") o odpadni električni in elektronski opremi, Direktiva 2002/96/ES, ki je veljavna od 13. avgusta, izdelkov "električne in elektronske opreme" ni dovoljeno odstranjevati kot običajne komunalne odpadke, proizvajalci zadevne elektronske opreme pa so zavezani, da tovrstne izdelke na koncu njihove življenjske dobe sprejmejo nazaj.
Preface

(Bulgarian) (български) Според директивата на Европейския съюз относно отпадъците от електрическо и електронно оборудване, директива 2002/96/EC, важаща от 13 август, 2005 г., електрическо и електронно оборудване не може да се изхвърля заедно с битовите отпадъци и производителите на такова оборудване са задължени да приемат обратно съответните продукти в края на експлоатационния им период.

(Croatian) (Hrvatski) U okviru Direktive Europske Unije ("EU") o Otpadnim električnim i elektroničkim uređajima, Direktiva 2002/96/EC, koja je na snazi od 13. kolovoza 2005., "električni i elektronički uređaji" se ne smiju više bacati zajedno s kućnim otpadom i proizvođači su obvezni zbrinuti takve proizvode na kraju njihovog životnog vijeka.

(Persian) انحلاله در مورد 13 آگست 2005 میلادی قانون احداث شده‌ای که پس از تکرک های 2002/96/EC رسیده است که قانون دفع زباله‌های الکتریکی و الکترونیکی (که از نظر نظریه‌نگرها و بهاییان دنیای زندگی و کسب و کار خود از این باتری‌های مصرف و سی‌سکت‌ها)

(Arabic) (العربية) في إطار إتفاقية الاتحاد الأوروبي ("الاتحاد الأوروبي") بشأن تدابير المحايدة والأنظمة المتضمنة في الاتحاد الأوروبي توجيه 2002/96/EC للاتحاد الأوروبي، الذي أصبح ساري المفعول في 13 أغسطس/آب، 2005، إن المبادرات "جهود كهربائية وإلكترونية" لا يمكن التخلي عنها بوصفها تدابير، ومنجز العادات الإلكترونية سيكون لذا علیهم استناد مثل هذه المنتجات في نهاية مدة صلاحيتها.
Chapter 1
Overview

This system is designed with green commerce and smart digital lifestyle, using an LED backlit display to increase clarity, while reducing the burden to the eyes. With the compact chassis and flexible stand, it blends technology with life, making computers easier to use - suitable for both individuals and businesses.
**Packing Contents**

- Wind Top Series
- AC/DC Adapter
- AC Power Cord
- LCD Display Wiper
- Driver/Utility Disk
- User Manual & Quick Guide
- Keyboard (Optional)
- Mouse (Optional)
- Stylus (Optional)

* Please contact us immediately if any of the items is damaged or missing.
* The illustrations are for reference only and your packing contents may slightly vary depending on the model you purchased.
System Overview

➤ Front View

1. **Microphone**
   The built-in microphone can be used for video chatting online.

2. **Webcam**
   The built-in webcam with the microphone can be used for picture taking, video recording, online conferencing and any other interactive applications.

3. **Display**
   The 15.6-inch LED-backlit display is with an optimal resolution of 1366 x 768 pixels and standard proportion of 16:9 widescreen.

4. **Stereo Speakers**
   The built-in stereo speakers deliver high quality sound blaster with stereo system.
Rear View

1. **Ventilator**
The ventilator on the enclosure is used for air convection and to prevent the equipment from overheating. Do not cover the ventilator.

2. **Stand**
Use this stand to position your system on a flat and stable surface.

3. **Cable Routing Hole**
Route the cables through the cable routing hole to avoid cable spaghetti when connecting devices.

4. **Kensington Lock Port**
This AIO PC provides a Kensington lock port, which allows users to secure the AIO PC in place with a key or some mechanical PIN device and attached through a rubberised metal cable. The end of the cable has a small loop which allows the whole cable to be looped around a permanent object, such as a heavy table or other similar equipment, thus securing the AIO PC in place.
Ventilator
The ventilator on the enclosure is used for air convection and to prevent the equipment from overheating. Do not cover the ventilator.

Line-Out Jack
This connector is provided for headphones or speakers.

Microphone Jack
This connector is provided for microphones.

USB 2.0 Port
The USB (Universal Serial Bus) port is for attaching USB devices such as keyboard, mouse, or other USB-compatible devices. It supports up to 480Mbit/s (Hi-Speed) data transfer rate.
RJ-45 LAN Jack (LAN2 Optional)

The standard RJ-45 LAN jack is provided for connection to the Local Area Network (LAN). You can connect a network cable to it.

VGA Port

The VGA port supports monitors and other VGA interface devices.

Serial Port (Optional)

The serial port supports barcode scanners, barcode printers, bill printers, credit card machine, etc.

Parallel Port (Optional)

The parallel port supports printers and other parallel interface devices.
1. **System Power Button**
   Press the system power button to turn the system on or off.

2. **System Power LED**
   The power LED glows when the system is turned on and goes off when the system is shut down. In terms of power saving, the LED blinks in S3 (Suspend to RAM) mode and goes off in S4 (Suspend to Disk) mode.

3. **Hard Disk Drive LED**
   This indicator shows the activity status of the HDD. It flashes when the system is accessing data on the HDD and remains off when no disk activity is detected.

4. **Brightness Button**
   These buttons adjust the brightness level.

5. **Memory Card Reader**
   The built-in card reader may support various types of memory cards.
USB 2.0 Port (Optional)
The USB (Universal Serial Bus) port is for attaching USB devices such as keyboard, mouse, or other USB-compatible devices. It supports up to 480Mbit/s (Hi-Speed) data transfer rate.

USB 3.0 Port (Optional)
The USB 3.0 port is backward-compatible with USB 2.0 devices. It supports up to 5Gbit/s (SuperSpeed) data transfer rate.

Power Jack
The AC/DC adapter converts AC power to DC power for this jack. Power supplied through this jack supplies power to the PC. To prevent damage to the PC, always use the supplied power adapter.

Smart Card Reader (Optional)
This card reader supports smart cards to provide identification, authentication, data storage, application processing, etc.

Optical Disk Drive (Optional)
A DVD Super-Multi drive is integrated for your home entertainment.

Eject Hole (Optional)
Insert a thin, straight object (such as a paper clip) into the eject hole to open the optical disk drive manually if the eject button does not work.

Eject Button (Optional)
Press the eject button to open the optical disk drive.
Wind Top Series

System Specifications

Processor
- Intel® Celeron® Processor

Chipset
- Intel® NM70 chipset

Memory
- 1 DDR3 1333 MHz SO-DIMM slot
- Supports the maximum of 4GB

LAN
- Wired LAN: supported by Realtek® RTL8111E Gigabit Ethernet controller
- Wireless LAN: optionally supported through Mini PCI-E WLAN module

Audio
- HDA Codec by Realtek® ALC887
- Compliant with Azalia 1.0 specs

Display
- 15.6-inch display with LED backlight
  - An optimal resolution of 1366 x 768 pixels
  - Standard proportion of 16:9 widescreen

Bottom Input/Output
- 1 Line-Out audio jack
- 1 microphone jack
- 2 USB 2.0 ports
- 2 RJ-45 LAN jacks (LAN2 Optional)
- 1 VGA port
- 2 serial ports (Optional)
- 1 parallel port (Optional)

Side Input/Output
- 1 memory card reader
- 2 USB 2.0/ 3.0 ports (Optional)
- 1 DC power jack
- 1 smart card reader (Optional)
Storage
- Hard Disk Drive: 2.5”, SATAII
- Optical Disk Drive: Slim DVD Super Multi (Optional)
- Card Reader:
  - SD/ MMC/ MS card reader
  - Smart card reader (Optional)

Stereo Speaker
- 2 stereo speakers

WebCam
- Support webcam with microphone

Power Supply
- 65 Watt AC/ DC adapter with active PFC
  - Input: 100-240V, 1.5A, 50-60Hz
  - Output: 19V 3.42A
Component Replacement & Upgrade

Please note that certain components preinstalled in the product may be upgradable or replaceable by user’s request depending on the models users purchased.

To learn more about upgrade limitation, please refer to the specifications in the User’s Manual. For any further information on the product users purchased, please contact the local dealer.

Do not attempt to upgrade or replace any component of the product if you are not an authorized dealer or service center, since it may cause the warranty void. It is strongly recommended that you contact the authorized dealer or service center for any upgrade or replace service.
Chapter 2

Getting Started

This chapter provides you with the information on hardware setup procedures. While connecting peripheral devices, be careful in holding the devices and use a grounded wrist strap to avoid static electricity.
Safety & Comfort Tips

The AIO PC is a portable platform that allows you to work anywhere. However, choosing a good workspace is important if you have to work with your PC for a long period of time.

1. Your work area should have enough illumination.
2. Choose the proper desk and chair and adjust their height to fit your posture when operating.
3. When sitting on the chair, sit straight and keep a good posture. Adjust the chair’s back (if available) to support your back comfortably.
4. Place your feet flat and naturally on the floor, so that your knees and elbows have the proper position (about 90-degree) when operating.
5. Put your hands on the desk naturally to support your wrists.
6. Adjust the angle/position of the AIO PC to have an optimal view.
7. Avoid using your PC in a place where discomfort may occur (such as on the bed).
8. The AIO PC is an electrical device. Please treat it with great care to avoid personal injury.
Hardware Setup

Positioning Your System

1. Place your system on a flat and steady surface such as a table or desk.
2. Tilt the display and pull the stand outwards to your desired extent. Make sure the system is securely positioned before powering it on.
Connecting the AC Power

1. Assemble the AC/DC adapter and the AC power cord.
2. Plug the DC end of the adapter to the AIO PC.
3. Plug the male end of the AC power cord to the electrical outlet.

**Important**

We suggest that you connect the AC/DC adapter to your AIO PC first and then connect the AC power cord to the socket-outlet for safety concerns.
> Powering on the System

Press the power button to power on the system.
Chapter 3
System Operations

This chapter provides you with essential information on system operations.

**Important**
All information is subject to change without prior notice.
System Booting Setup for the first time

For the first-time use, you will need to go over the following steps to start using your Wind Top Series AIO PC. The entire booting setup will take you around 30 minutes.

1. Windows setup starts running. Please wait until Windows setup finishes the progress loading.
2. Select the language of the operating system and click [Next] to continue.
3. Choose the “Country or region”, “Time and currency”, and “Keyboard layout” you need. Click [Next] to continue.
4. Choose a user name for your account and name your computer to distinguish it on the network. Click [Next] to continue.
5. Set a password for your account to protect your user account from unwanted users. (Leave this field blank if no need for password.) Click [Next] to continue.
6. Please read the license terms. Check the “I accept the license terms” box and click [Next] to continue.
7. Select [Use recommended settings] for “Help protect your computer and improve Windows automatically.”
8. Review your time and date settings. Click [Next] to continue.
9. Please choose a wireless network you intend to join from the provided WLAN list. Click [Next] to continue. You may also click [Skip] to skip this step and set up the WLAN later.
10. (Optional) Followingly comes the anti-virus software screen. Click [Agree] to accept the license agreement terms and activate the anti-virus software. Alternatively, choose [Stay Unprotected] and click [Next] to proceed without activating the anti-virus software.
11. The “Software Installation Menu” pops up. Click [Install] to continue.
12. The software is being installed. Please do not turn off the computer when software installation is running. When the progress bar completes loading, click [Finish] to continue.
13. The system enters the Windows 7 OS to start its personalized settings. Get ready to explore your AIO PC after the personalized settings are done. Have fun with it!
Touch Panel Calibration (Only for single-touch model)

Wind Top Series AIO PC has touch panel function. If the mouse cursor cannot match the move, users could use the calibration tool installed in the system to adjust the accuracy of the touch panel. Please go over the following steps to get it done.

1. Locate the calibration tool at [Start] > [All Programs].

2. Three calibration modes are provided: 4 points, 9 points, and 25 points. We suggest that users choose 9 points to adjust the touch panel. If users desire the best precision, then choose 25 points instead.
3. Follow the on-screen instructions to calibrate the touch panel.

**Important**

- Do not touch the screen directly with any sharp-pointed object.
- Actual product specifications may vary with territories.
Network Connection under Windows

➢ Wired LAN

1. Go to [Start] > [Control Panel].

2. Select [Connect to the Internet] under [Network and Internet].
3. Select [Broadband (PPPoE)] to connect using DSL or cable that requires a user name and password.

4. Type the information from your Internet Service Provider (ISP) and click [Connect] to establish your LAN connection.
Wireless LAN

1. Go to [Start] > [Control Panel].

2. Select [Connect to the Internet] under [Network and Internet].
3. Select [Wireless] to connect using a wireless router or a wireless network.

4. A list of available WLAN connections pops up. Choose a connection from the list or click [Open Network and Sharing Center] to establish a new connection.

5. To establish a new WLAN connection, select [Set up a new connection or network] in [Network and Sharing Center].
6. Following, choose [Manually connect to a wireless network] and click [Next] to continue.

7. Enter information for the wireless network you intend to add and click [Next] to proceed.

8. A new WLAN connection has been made. Click [Close] to exit or select [Change connection settings] to modify the WLAN settings.
Power Management

Power management of personal computers (PCs) and monitors has the potential to save significant amounts of electricity as well as deliver environmental benefits.

To be energy efficient, turn off your display or set your PC to sleep mode after a period of user inactivity.

➤ Power Management in Windows OS

- [Power Options] in Windows OS allow you to control the power management features of your display, hard drive, and battery. Go to [Start] > [Control Panel] > [System and Security].

Then click on the [Power Options] link.

Select a power plan that suits your personal needs. You may also fine-tune the settings by clicking [Change plan settings].
The Shut Down Computer menu presents the options of Sleep (S3/S4) & Shut Down (S5) for rapid and easy management of your system power.

- **Power Management through ENERGY STAR qualified monitors (Optional)**

The power management feature allows the computer to initiate a low-power or “Sleep” mode after a period of user inactivity. When used with an external ENERGY STAR qualified monitor, this feature also supports similar power management features of the monitor. To take advantage of these potential energy savings, the power management feature has been preset to behave in the following ways when the system is operating on AC power:

- Turn off the display after 15 minutes
- Initiate Sleep after 30 minutes

- **Waking the System Up**

The computer shall be able to wake up from power saving mode in response to a command from any of the following:

- the power button,
- the network (Wake On LAN),
- the mouse,
- the keyboard.

- **Energy Saving Tips:**

- Turn off the monitor by pressing the LCD power button after a period of user inactivity.
- Tune the settings in Power Options under Windows OS to optimize your PC’s power management.
- Install power saving software to manage your PC’s energy consumption.
- Always disconnect the AC power cord or switch the wall socket off if your PC would be left unused for a certain time to achieve zero energy consumption.
System Recovery Tool

**Important**

The Recovery Tool is only available on systems bundled with Windows OS and MSI utilities by default.

The purposes for using the Recovery Tool may include:

- Restore the system back to the initial status of original manufacturer’s default settings.
- When some errors have occurred to the operating system in use.
- When the operating system is affected by virus and is not able to work normally.
- When you want to install the OS with other built-in languages.

Before using the Recovery Tool, please back up the important data saved on your system drive to other storage devices.

If the following solution fails to recover your system, please contact the authorized local distributor or service center for further assistance.

▸ Recovering the System with the F3 Hotkey

If the system encounters non-recoverable problems, it is always recommended that you try the F3 hotkey to recover your system with the recovery partition of the hard disk drive first.

Follow the instructions below to continue:

1. Restart the system.
2. Press the F3 hotkey on the keyboard when the following image appears.
3. Enter the Recovery Tool. This tool contains three features: Backup System, Restore System and Recover to factory default.

➢ System Backup

It is highly recommended that users back up the system as the solution in the event of a catastrophic disk failure or other accidents.

Follow the instructions below to continue:
2. Select [BACKUP] to start the system backup immediately.

- **The Initial Backup**
  The initial backup may take a while. Please let it complete without interruption.

- **Subsequent Backups**
  Subsequent backups will replace the previous backup files.
3. The system backup is in progress. Please note that it may take a while. Do not switch off the power, or it may cause unknown damage to the system.

4. Alternatively, select [CANCEL] to stop the system backup immediately. Please do not switch off the power while the system backup cancellation is in progress.
5. The following message indicates a successful system backup. Press [OK] to finish.

➢ System Restore
This tool helps to return the system to a previous state with the backup files that users created and saved in the hard disk drive beforehand. If no backup files are available, the system will be restored to the default setup.

Follow the instructions below to continue:
2. Select [OK] or [NEXT] so that the system can recover to the previous backup or default setup. Alternatively, select [CANCEL] to stop the system restore immediately.

- **With backup files: restoring the system to the previous backup**

![Image of recovery tool with message: Are you sure you want to recover the system to 2011-10-10 09:32:02?]

- **Without backup files: restoring the system to the default setup**

![Image of recovery tool with message: No image files in the backup. Select "Next" so that the system can recover to the default setup.]

3. The system restore is in progress. Please note that it may take a while. Do not switch off the power, or it may cause unknown damage to the system.

4. The following message indicates a successful system restore. Press [OK] to finish. Restart the system and access the Windows operating system as usual. If the restore process fails or is interrupted, please start the whole procedure all over again.
System Recovery

This tool helps to recover the system back to factory default settings. All data on the HDD will be erased while all settings will be restored to factory default.

Follow the instructions below to continue:
1. Select [Recover to factory default] to enter. Alternatively, select [X] or press [Esc] on the keyboard to exit.

2. The system will be recovered to factory settings. All data will be gone. Make sure all important data have been backed up. Select [NEXT] to continue. Alternatively, select [CANCEL] to stop.
3. Please select [OK] so that the system can recover its default setup.

4. The system recovery is in progress. Please note that it may take a while. Do not switch off the power, or it may cause unknown damage to the system.
5. The following message indicates a successful system recovery. Press [OK] to finish. Restart the system and access the Windows operating system as usual. If the recovery process fails or is interrupted, please start the whole procedure all over again.
Appendix A

Troubleshooting
Troubleshooting

My system does not start.

1. Check if the system is connected to an electrical outlet and it is turned on.
2. Check if the power cord and all cables are connected firmly.

When I turn on my computer, the message “Operating System not found” appears or Windows does not start.

1. Check if there is a non-bootable CD/ DVD inside the optical disk drive. If so, remove the CD/ DVD then restart the computer.
2. Check Boot Device Priority settings in the BIOS Setup.

The system can not be shut down.

It is best to shut down your computer using the Shut Down icon in the operating system. Using other methods, including those listed below, may result in data failure. If the Shut Down procedure does not work, choose one of the following steps:

1. Press Ctrl+Alt+Del keys, then choose Shut Down.
2. Press and hold the power button till the system is off.
3. Unplug the power cable from the system.

My microphone does not work.

1. For built-in microphone, please go to Start > Control Panel > Sounds and Audio Devices > Audio to check if it is muted.
2. If you are using an external microphone, check that the microphone is plugged into the Microphone jack.

The Internet connection has problems.

1. If you are having a problem connecting to your Internet Service Provider (ISP), check if the ISP is experiencing technical problems.
2. Check the Network settings and connection and make sure the system is properly configured to Internet access.
3. The wireless LAN data transfer speed is affected by distance and obstructions between devices and access points. To maximize the data transfer speed, choose the access point closest to your system.
System speakers do not work.

1. Check the master volume setting in the Audio Mixer.
2. If you are using an application that has its own volume control, check if the volume is muted.
3. If you have connected an audio cable to the Headphone jack, disconnect it.
4. If the system has OSD function, please adjust the volume of OSD.

I cannot play a CD/ DVD with the DVD-ROM of the system.

1. Make sure the label of the CD/ DVD is facing up.
2. If the CD/ DVD requires software, make sure the software is well installed according to the program instructions.
3. If a region code warning appears when you play the DVD, the problem could be that the DVD is incompatible with the DVD-ROM in your system. The region code is listed on the disc packaging.
4. If you see video but cannot hear audio, check the media player. Also, make sure the speakers and the master volume setting in the Audio Mixer are not muted.
5. Check if the drivers are installed properly. Click Start > Control Panel > System > Device Manager.
6. A dirty or scratched disc may cause the computer to hang when it is trying to read the disc. If necessary, reboot the computer, remove the disc, and check if it is dirty or scratched.
7. Please use DVD player software like PowerDVD or WinDVD to play DVD video.

My DVD-ROM drive tray does not open.

1. Make sure the computer is turned on.
2. Press the Eject button on the DVD-ROM drive.
3. If the Eject button does not work, open the tray by inserting a sharp, pointed object into the hole next to the Eject button.

System monitor does not display anything.

1. Check if the system is connected to an electrical outlet and it is turned on.
2. The system may be in Standby mode. Press any key to activate the Display.
