# Lifesize Dash™

Start simply, scale effortlessly.

Lifesize Dash™ helps you transform your small, underutilized phone rooms into video-connected, collaboration hotspots so you can deploy modern, cost-effective workspaces in your smallest meeting rooms. This software-based video collaboration solution uses WebRTC technology to enable video, audio and wireless screen sharing on inexpensive Chromebox devices.

Lifesize Room Controller

The Lifesize Room Controller is a tablet application designed to bring touch controls to your mini meeting rooms. Search your company directory, join a meeting, wirelessly share your screen and access in-call controls like mute, add participants and call recording all with the touch of a finger.

Extraordinary Value

Low-cost video solution so you can stop wasting space

Easy to Use

Intuitive design built with the user in mind

Tablet-Controlled

All the essential controls are right at your fingertips

Wireless Sharing

Eliminate the clutter of cords and dongles

Perfect for Mini Spaces

Device flexibility comfortably fits your needs in mini spaces

Centrally Managed

Set up, track and manage all in one place

Same Lifesize Experience

Different room size, same meeting experience

Automatic Updates

No software updates to maintain or manually update

Configure your Lifesize Dash Room
