VisionTek®

VisionTek 4GB PC3-10600 DDR3 1333MHz 204-pin SODIMM Memory Module

VisionTek Part# 900449

The VisionTek 4GB PC3-10600 DDR3 1333MHz 204-pin SODIMM Memory Module is an ideal performance upgrade for standard notebooks and ultrabooks.

The Simple Performance Equation: More Memory = A Faster Computer

A VisionTek Memory Kit is the ideal performance upgrade for standard notebooks and ultrabooks. Maxing out your memory is the most cost-effective, easy DIY install solution to dramatically improving app and system responsiveness, gaming, and specific memory intensive usages such as video streaming over wireless networks. Every VisionTek memory module is built and tested to the JEDEC standard to deliver assured speed and reliability. For peace of mind ownership, every module comes backed by our Limited Lifetime warranty.
