

USB-C to HDMI 4K External Video Adapter (M/F), Thunderbolt 3 Compatible, 4K x 2K (4096 x 2160) @ 60 Hz, 6 in.

MODEL NUMBER: **U444-06N-HD4K6B**

Description

The U444-06N-HD4K6B USB 3.1 Gen 1 Type-C to HDMI 4K External Video Adapter (M/F) displays audio/video on a 4K HDMI monitor, projector or television via your computer, laptop, smartphone or tablet's USB-C port. It's an ideal tool for multitasking, editing documents, giving presentations at trade shows and conferences, or watching movies and playing video games.

This HDCP 2.2-compatible adapter works with USB-C devices that support Thunderbolt 3. Devices include Apple MacBooks, select Chromebooks, such as the Pixel, and Dell XPS models 15 and 13.

No software, drivers or external power supply is needed. Connect the USB-C plug to the USB-C port on your source device. Then, connect the HDMI port to a display device using an HDMI cable (such as Tripp Lite's P568-Series) to enjoy full video and audio.

The U444-06N-HD4K6B supports HDMI 2.0a video resolutions up to 4096 x 2160 (4K x 2K) at 60 Hz, 24-bit Deep Color (8 bits per channel) and 7.1-channel surround sound audio. The slim, durable housing is designed to store in your backpack or laptop bag for use wherever you go.

Features

Easy to Add a 4K HDMI Monitor

- Supports USB DisplayPort Alternate Mode for transmitting audio/video via your computer, laptop, smartphone or tablet's USB-C or Thunderbolt 3 port
