Steel Security K-Slot Cable Lock

For laptops, tablets, desktops and more

Steel Security K-Slot Cable Lock

This galvanized steel cable keeps your device protected from theft and fully accessible. Simply loop the cable end around a permanent fixture like a table leg, insert the cable head into your computer's Kensington slot, and use the key to lock. The cable head is compatible with all standard Kensington slots commonly found on laptops.

Features:

• Galvanized steel cable with Kensington lock head and looped cable end
• Compatible with all standard Kensington slots (K-slots)
• Keeps laptops, desktops, and other devices securely anchored to table, desk, or counter
• Perfect for dorm rooms, reception desks, waiting rooms, retail counters, and more

Package Contents:

(1) Security cable
(1) Set of keys

Specifications:

• Cable length: 80 inches
• Weight: 0.22 lbs.
