High-Speed USB ports are compatible with all your mobile devices

Displays real-time information about your battery and connected devices

Sleek aircraft aluminum housing with CNC finished edges

Part #: MEACU26800

SRP: \$ 119.99

When you're on the go, you need your devices powered and ready for action.

Unfortunately, there's not always an outlet for you to plug into. What do you do?

If you have a CORE Power in your gear, you're covered. Just plug your device into the battery, and you can keep moving! The CORE Power USB is a 26,800 mAh rechargeable battery with 2 USB out ports, allowing you to charge 2 devices at once, while staying on the move. The Quick Charge 3.0 output means your devices will be ready fast. Then, when you're back home, charge the CORE Power back up in no time, thanks to the High-Powered USB-C input.

Features

- Huge 26,800 mAh capacity
- Charges most smartphones 8-12 times or tablets 2-3 times.
- High speed Quick Charge 3.0 Technology
- LCD digital indicator screen Displays real-time information
- Dual USB outputs can charge 2 devices at once
- Auto device recognition
- Power your Smartphones, Tablets, and other USB devices
- Built-in safety features to protect your devices
- Sleek aircraft aluminum housing for superior heat dissipation
