

RAC 05 GPS Super HD Video Dash Cam

The RAC 05 is a forward facing dash cam with built-in GPS tracking, using a state of the art technology AL750 chip from Ambarella. Suitable for any vehicle, the RAC 05 is packed with driver-friendly features which include Lifetime Safety Camera and Speed Alerts, a Forward Collision and Lane Diversion Warning System and video recording capability in Super HD 1296p.

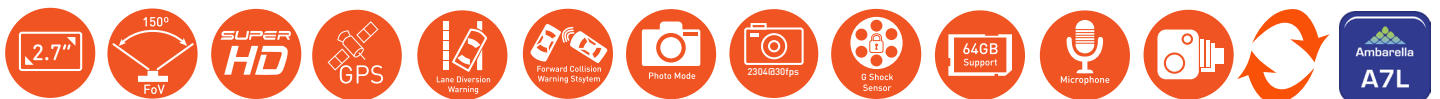

How does the RAC 05 work?

The RAC 05 records video onto a micro SD card, which is fitted into a slot on the camera.

The amount of video stored depends on the size of SD card being used – the RAC 05 can support SD cards with a capacity of up to 64GB. As a guide, when recording in amazing Super HD, 5 minutes of video uses about 1GB of space on the SD card.

The RAC 05 records in segments, the length of which is pre-set to 3 minutes, but can be adjusted using the simple menu functions on the camera.

When the SD card is full, the RAC 05 operates on a loop recording system, overwriting the oldest recording and continues to record without the need to erase or download any data.

Key Features

GPS Tracking – Records and stores a vehicle's speed and location, making it available for viewing when played back through a PC.

ProofCam Mapping Software – Displays GPS information using Google Maps.

Video Recording – Super HD quality 2304 x 1296 at 30fps with the latest H.264 technology.

Discreet Recording – The video display screen incorporated in the mirror, turns off after a short time so that the driver's view is not interrupted – in the background the camera is recording everything on the road ahead.

Lifetime Safety Camera + Speed Alerts – Activated using the built-in GPS. When a vehicle approaches a speed or safety camera, an alert notifies the driver of their distance to the camera, the current speed limit and vehicle speed.

Forward Collision Warning System – A smart feature which monitors the distance of vehicles ahead, if the camera detects a vehicle that is too close an alert will sound to notify the driver.

Lane Diversion Warning System – The camera can detect white lines on the road ahead, and if a slow diversion is detected then an alert will sound to notify the driver.

Microphone and Speaker – Sounds and conversations can be recorded, if required. If not, a simple one touch button will mute the microphone.

Emergency Button – When pressed, the current sector of a recording becomes protected, and will not be lost when the camera continues recording.

The RAC 05 can be powered using the supplied power cable connected to a vehicle's 12 volt power socket or hard-wired by our partner, Chameleon.

The RAC 05 is a forward facing dash cam with built-in GPS, using a state of the art technology AL750 chip from Ambarella. Suitable for any vehicle, the RAC 05 is packed with driver-friendly features which include Lifetime Safety Camera and Speed Alerts, a Forward Collision and Lane Diversion Warning System and video recording capability in Super HD 1296p. The RAC 05 is supplied with a free 8GB Micro SD card allowing for 5 minutes of video for each 1GB of space on the supplied card. The RAC 05 records in segments, the length of which is pre-set to 3 minutes, but can be adjusted using the simple menu functions of the camera. When the SD card is full, the RAC 05 operates on a loop recording system, and will overwrite the oldest recording and continue without the need to erase or download any data.

Physical & Performance

Unit Dimensions:	10 x 3 x 5 cms
Camera Weight:	0.196kg
Battery Life:	20 minutes
Gift Box Dimensions:	19 x 13.5 x 7.5 cms
Gift Box Weight (with Camera):	0.396kg
Master Carton Quantity:	20
Master Carton Dimensions:	40 x 40 x 29.5 cms
Master Carton Weight:	8.9kg
EAN (Camera/Carton):	5060364670696 / 5060364670726

Inside the Box

1 x RAC 05 camera

1 x Power cable

1 x Mini USB cable

1 x Suction cup

1 x 8GB Micro SD card

Power and USB lead in one

User manual

Hard wiring fitting card
