Product Description

When you're on the road and need to power your device, the Kensington 10400 Mobile USB Charger is the perfect answer to boost a drained battery. The mobile charger features a 10,400 mAh battery and a 2.1 AMP output that has enough reserve power to fully charge an iPhone® 6 Plus or a Galaxy S5 two times. The high-grade LG® battery cell and high-quality components ensure your device charges safely and efficiently. With PowerWhiz™ Technology, the charger automatically detects your device and provides the fastest charge possible. A stylish aluminium cover finish creates a professional look and the 4-LED display lets you know how much power is left in the charger. The power bank can be used with a wide variety of devices including all Apple® products, most Android™ smartphones and tablets, and many other USB-charged devices.

Features

- Powerful 10400 mAh battery with 2.1A output quickly gives an iPhone 6 Plus or Galaxy S5 two full charges
- High-grade LG® battery cell and high-quality components ensure your device charges safely
- PowerWhiz Technology automatically recognizes your device and provides a fast, safe charge
- Beautiful and stylish aluminum finish
- 4-LED battery level indicator lets you know how much power is left
- Compatible with all Apple®, most Android™ and other USB-charged phones and tablets
- USB charging cable included

Specifications
