Talk, listen and play

.Audio™ 326 Stereo headset

Ideal for Internet calling, stereo music and gaming.

.Audio™ 326

Talk, listen and play. Get the most out of multimedia on your PC with the Plantronics .Audio™ 326. The perfect all-rounder that delivers rich stereo sound to a full range of media – music and games, Internet calls, speech recognition, video conferencing, and voice recording. A noise-cancelling microphone enhances speech accuracy and the inline controls lets you adjust volume and mute at the press of a button. The bendable boom adjusts for perfect microphone placement and conveniently stows away when not in use. A lightweight, adjustable headband and feather-soft, swivel-mounted ear cushions provide all-day comfort. The .Audio 326 is compatible with popular PC sound cards – just plug it in and start talking, listening and playing.

KEY FEATURES

- Full-range stereo intensifies audio experience
- Inline controller for music volume, microphone volume and mute
