

SAMSUNG

Flexibility that's unmatched.

Productivity that's unstoppable.

Chromebook Plus | Pro

Introducing business-savvy 3-in-1 Chromebooks that combine notebook-grade power with the freedom to work seamlessly in the cloud, so you can accomplish more than ever, every day.

Presenting two new ways to empower your team: the ultra-thin, super-light Samsung Chromebook Plus and Chromebook Pro for business. Built for mobile productivity in the field or on the sales floor, these professional-grade 3-in-1 workhorses have 360-degree rotating screens that easily convert from tablet to notebook, and come with a built-in Pen to get things done effortlessly. Whether you're collaborating in the cloud or multitasking offline, having uninterrupted access to Android apps while on the go ensures nothing gets in the way of making the most of every workday. And with enhanced business-grade security and a web-based Chrome Management Console, you'll be free to confidently focus on things that really matter, like growth.

3-in-1 Flexibility

With a 360° hinge, the Samsung Chromebook Plus and Chromebook Pro go from tablet to laptop and back again in a heartbeat. And with the built-in Pen, you can write, type or touch your way to greater productivity. Sign contracts in the field. Complete forms. Give impressive presentations. You can work the way that's most efficient, without being confined to a single form factor.

A Chromebook Optimized for Android

The Samsung Chromebook Plus and Chromebook Pro run virtually every app your Android phone or tablet does (either online or offline), giving you access to more than two million Android apps, including your favorite productivity apps.

Ideal for Workforces on the Move

The sleek, full-metal bodies are just 0.55" slim and weigh just 2.38 lbs. And with up-to-9-hour batteries, they're ready for long days in the office or on the sales floor.

Bright, Beautiful Picture

The 2400 x 1600 QHD resolution delivers sharp images full of rich detail, while the 400-nit screens are clear and bright.

Ergonomic Keyboard with Curved Keycaps

Ergonomically curved keycaps match your fingertips, so every stroke is smooth and comfortable.

Up to 4K Streaming via USB-C

Working on a larger screen is as easy as connecting a monitor to the Chromebook Plus or Chromebook Pro. And for the ultimate high-resolution experience, you can stream rich 4K content in a retail or showroom setting by connecting to a 4K monitor via USB-C.

Safe and Secure

Access secure data with confidence. The Chromebook Plus and Chromebook Pro are protected by hardware-based verified access (discrete TPM 1.2), all data is encrypted, auto updates mean you're always running the most secure OS, and every application and browser tab is sandboxed to protect against malware, spyware or viruses.

Easily Manage Multiple Devices

The web-based Chrome Management Console makes it easy to control your entire workforce's devices.
