HH. Reduserer batteriets driftstid.

II. Power on the Notebook

When the AC power is connected, press the power button to turn the notebook on.

III. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

IV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

V. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

VI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

VII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

VIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

IX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

X. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XIV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XVI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XVII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XVIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XIX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXIV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXIX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXIV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVIX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXIV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXV. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVIX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVIII. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVIX. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVI. Power off the Notebook

When the AC power is disconnected, press the power button to turn the notebook off.

XXVXVII. Power off the Notebook

When the AC power is disconnected,
