# THE ULTIMATE TOUCH EXPERIENCE

Introducing the easiest way to control and enjoy all your favorite multimedia all in one place. LG's cutting edge multi-touch technology, 10 Point Touch lets you manage your entertainment and educational applications seamlessly. Treat your senses to the most immersive entertainment experience imaginable.

## 10 Point Touch

LG Touch10 Monitors provide new screens that can track up and respond to 10 simultaneous points allowing various multi-finger gestures.

### Touch with Windows 8

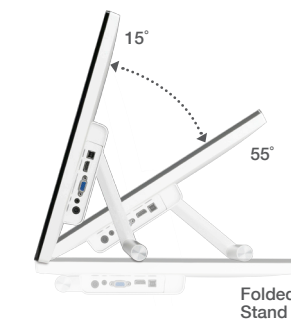

Compatible with Windows 8 10 point touch technology. LG IPS Touch 10 Monitor delivers a new level of entertainment on various Windows 8 applications.

\*Touch pen is excluded.

## Convenient for Touch Use

With the ergonomic folding stand, the monitor can be used in various angles which are highly convenient for touch use. (ET63 only)

## Easy Connection

With only USB cable plugged in, the touch screen can be used. No extra installation of software required.

## Lifelike Color Expression

LG IPS Monitor is the answer for those who desire a lifelike viewing experience. With exceptional picture quality, you will be free from any constraints on your eyes and posture.
