Product Features

- Actively converts a DVI-D digital signal for use with an analog VGA monitor
- Supports computer video resolutions up to 1920 x 1200, or HD resolutions up to 1920 x 1080 (1080p)
- Supports VGA cables up to 100 ft.
- Includes a Micro USB port for applications where power is needed
- Plug-and-play; no software or drivers required

System Requirements

- A computer with a DVI port
- A monitor with a VGA port

Package Includes

- P120-06N-ACT
- 3 ft. Micro USB Cable
- Quick Start Guide

Optional Accessories

- P502-Series High Resolution VGA Cables with RGB Coax
- U050-Series Micro USB Cables

Installation

Notes:

- *Make sure that power to all devices is turned off prior to installation.*
- *The Micro USB port on the adapter and the included Micro USB cable are provided for applications where power is needed. If your application doesn't work without power, connect the Micro USB cable from the adapter to a USB port on your monitor or a USB wall outlet.*

1. Connect the adapter to the DVI port on your computer.
2. Connect a monitor to the VGA port on the adapter. VGA cables up to 100 ft. are supported.
3. Turn on power to the computer and monitor.

Troubleshooting

If you are unable to get an acceptable image after following the installation instructions, try the troubleshooting tips below.

1. The Micro USB port on the adapter and the included Micro USB cable are provided for applications where power is needed. If your application doesn't work without power, connect the Micro USB cable from the adapter to a USB port on your monitor or a USB wall outlet.
2. What resolution are you trying to obtain? The P120-06N-ACT was tested to support computer video resolutions up to 1920 x 1200, or HD video resolutions up to 1920 x 1080 (1080p). If you are not able to get an acceptable image, try lowering your computer's video resolution or adjusting the refresh rate.
3. What length VGA cable are you using? The P120-06N-ACT was tested to support cable lengths up to 100 ft. If you are using cable longer than 100 ft., you will have to switch to a shorter cable.
4. What quality of cable are you using? Low quality VGA cables will not be able to support higher video resolutions. It is recommended that you use high quality VGA cable with RGB Coax, such as Tripp Lite's P502-Series.
5. Test your cable to make sure that it is working properly by connecting it between a VGA computer and monitor.

Warranty and Product Registration

3-YEAR LIMITED WARRANTY

TRIPP LITE warrants its products to be free from defects in materials and workmanship for a period of three (3) years from the date of initial purchase. TRIPP LITE's obligation under this warranty is limited to repairing or replacing (at its sole option) any such defective products. To obtain service under this warranty, you must obtain a Returned Material Authorization (RMA) number from TRIPP LITE or an authorized TRIPP LITE service center. Products must be returned to TRIPP LITE or an authorized TRIPP LITE service center with transportation charges prepaid and must be accompanied by a brief description of the problem encountered and proof of date and place of purchase. This warranty does not apply to equipment which has been damaged by accident, negligence or misapplication or has been altered or modified in any way.

EXCEPT AS PROVIDED HEREIN, TRIPP LITE MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Some states do not permit limitation or exclusion of implied warranties; therefore, the aforesaid limitation(s) or exclusion(s) may not apply to the purchaser.

EXCEPT AS PROVIDED ABOVE, IN NO EVENT WILL TRIPP LITE BE LIABLE FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF THIS PRODUCT, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. Specifically, TRIPP LITE is not liable for any costs, such as lost profits or revenue, loss of equipment, loss of use of equipment, loss of software, loss of data, costs of substitutes, claims by third parties, or otherwise.

* No purchase necessary. Void where prohibited. Some restrictions apply. See website for details.

FCC Notice, Class B

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications to this equipment not expressly approved by Tripp Lite could void the user's authority to operate this equipment.

WEEE Compliance Information for Tripp Lite Customers and Recyclers (European Union)

Under the Waste Electrical and Electronic Equipment (WEEE) Directive and implementing regulations, when customers buy new electrical and electronic equipment from Tripp Lite they are entitled to:

- Send old equipment for recycling on a one-for-one, like-for-like basis (this varies depending on the country)
- Send the new equipment back for recycling when this ultimately becomes waste

WARNING

Use of this equipment in life support applications where failure of this equipment can reasonably be expected to cause the failure of the life support equipment or to significantly affect its safety or effectiveness is not recommended.

Tripp Lite has a policy of continuous improvement. Specifications are subject to change without notice.
