Take 5 MP photos	Small selfie mirror	Print instant 2"x3" photos
MicroSD card slot[1]	Reprint button on camera	Peel & stick back

What is ZINK™ and how does it work?

ZINK™ stands for "ZERO INK" printing technology. Instead of ink, it uses colorful dye-based crystals embedded inside the paper. Before printing, the embedded dye crystals are clear so ZINK™ Paper looks like regular, white photo paper. The ZINK-enabled device uses heat to activate and colorize these crystals.

TECHNICAL SPECIFICATIONS
