

Wall-Mount Server Rack - 2U

StarTech ID: RK219WALVO

The RK219WALVO 2U 19-inch Steel Side Mount Rack is a Wall Mountable Server Rack that provides a robust solution for mounting your telecom, network or server equipment.

This 2U rack can be mounted to a wall or directly under a desk/table, expanding your workspace and keeping equipment easily accessible.

Perfect for SOHO (Small Office, Home Office) environments, the wallmount rack offers a space-saving installation for environments lacking the footprint space for a full-size server equipment rack. The rack allows your equipment to be mounted vertically - non-rackmount equipment can be installed using the rack as a wall case/chassis.

Constructed to EIA-RS310 19-inch rack standards, the RK219WALVO features a sturdy steel design and is backed by a Lifetime warranty.

Applications

- Mount servers and telecommunication equipment flush against the wall
- Mount KVM switches or workstations under a desk or work bench to free up work space
- Install a blade server anywhere in an office without a full server room
- Ideal for small and medium businesses requiring small rack solutions dispersed throughout the organization

Features

- Optional included 2U steel plate allows rack to be used as a wall case for any non-rackmount equipment
- Wall mounting holes are 16" center to center for greater stability, and mounting to standard wall studs
- Compatible with most 19" wide rack mountable equipment
- Made from solid steel for durability
- Constructed to meet the EIA-RS310 19" rack standards
