

P2WU SURGE PROTECTOR

Protect home and office computers, electronics, and home theater equipment

Combining form and function, the CyberPower P2WU protects electronics, and the contemporary design helps it blend into a modern home. The two side-facing outlets give the front a clean look, while the low profile contour helps it fit into tight plug-in locations and behind appliances.

As a surge suppressor, it will prevent electrical spikes from reaching your appliances and small electronics. With three USB ports, the P2WU can conveniently charge three devices in one location. Plus, it's backed by a Limited Lifetime Warranty and a \$50,000 Connected Equipment Guarantee.
