

# AE-36

## Proven Design

The AE-36, our most popular headset model, was specifically created and reinforced for the rigors of the school environment and is already used by thousands of children around the United States. This headphone comes with our signature braided nylon cord for extra resistance to chewing. Additionally, the AE-36 is compact enough to be easily stored in individual desks. AVID also sells a one-to-two pin adapter that is compatible with the AE-36 for classrooms that require a dual plug solution.

## Extra Comfortable and Easy to Clean

The mid size ear pads of the AE-36 make the headphone the perfect size for a range of ears of any age. Vinyl ear pads make the AE-36 extremely easy to maintain and clean; the material can be wiped clean with any gentle over-the-counter cleansing product. The 6-foot cord allows for a large range of motion during use to help facilitate an interactive learning environment. The cord then wraps up easily into a Velcro tie for easy storage.

## Classroom Packs

The AE-36 is available in classroom packs of 12 or 24. The headphones are protected during transportation and storage in a durable hard case.

## Compliance

This product meets CPSIA and TPCB standards for environmental compliance and safety.
