Use the InTouch32 Cart to store and charge up to 32 tablets. The padded shelves and the flexible dividers protect the tablets. Overhead wire management aids the wiring integration, and allows the charging plugs to hang in front of each tablet. The small footprint covers less floor space, and aids in moving the InTouch32 Cart. Also, the handle aids in moving the InTouch32 Cart and is used as a cord wrap. An external switch operates power in the InTouch32 Cart and two external electrical outlets. The InTouch32 Cart is made with powder-coated steel for security and a durable and long-lasting finish. A two-bolt lock on the door and a hasp increases security of the computing device.
