Important operating note
• Your computer’s USB-C port must support DisplayPort over USB-C (DP Alt mode), to work with this adapter.

Introduction
This USB-C™ to VGA presentation adapter features a unique toggle switch that can prevent your computer from launching its screen saver, going to sleep, or entering power save mode during a presentation or meeting. This ensures that no matter what you’re presenting, you and your audience are saved the inconvenience of your display abruptly shutting down.

Product overview

Rear view

Presentation mode switch

Presentation mode ensures that your computer will never go to sleep or place your display in standby mode, regardless of what your power settings are set to. You can turn Presentation mode ON or OFF depending on your application.

When to turn Presentation mode ON

Turn Presentation mode on when you’re presenting information on-screen during a meeting, class or trade show, or whenever you want prevent your computer from turning off due to inactivity.

Note: You may notice occasional cursor movement that will prevent your computer’s power settings from turning off your display.

When to turn Presentation mode OFF

Turn Presentation mode off when using the adapter at your workspace or office hot desk. Turning Presentation mode off allows your computer to initiate its regular power settings, ensuring your computer can save energy while extending the life of your display.
