Epson **WorkForce Pro**
WP-4095 DN & WP-4595 DNF

Model shown is the WP-4595 DNF

The Epson WorkForce Pro WP-4095 DN and WP-4595 DNF provide the best of both worlds; laser-like looks, emulations and performance, combined with reliability and up to 50 percent lower running costs[1].

Easy to integrate into an enterprise environment, these printers are network-ready for easy sharing, including PCL6, PCL5c and genuine Adobe® PostScript® 3™ emulations. Both devices can easily replace a workgroup laser printer and offer much more, such as double-sided printing, copying, scanning and faxing with the top-of-the-range WP-4595 DNF model.

Both printers provide up to 50 percent lower cost per page than competitive lasers[1] thanks to high yield individual cartridges, providing up to 3,400 pages each[2]. Ink cartridges are the only consumable that needs replacing in these printers – freeing up storage space previously taken up by laser toners, fusers and photoconductors.

These devices are engineered for business, with a paper capacity of up to 580 sheets spread across three paper trays (one is optional), so you won't need to replace your paper type with another when you wish to switch formats. A high print resolution of up to 4800x1200dpi means that businesses get top-quality prints which are water, smudge, highlighter and fade resistant, as they dry instantly thanks to Epson DuraBrite Ultra ink.

As they are ENERGY STAR-qualified, offering a massive 80 percent reduction[3] in energy consumption compared to competitive lasers, these devices are economical and ecological and provide significant cost and environmental savings.

Both devices come with Epson Connect[4] to meet mobile printing needs, enabling users to print from smartphones and tablet PCs.
