

Daewoo. Day in, day out.

Daewoo fridges

Totally cool, day in, day out.

Daewoo's premium range of refrigerators has been developed to compliment today's modern lifestyle. From side by side fridges with automatic ice and water dispensers to top mount and bar fridges in a wide range of styles and sizes there is a model to suit your requirements.

Daewoo is also a leading developer of environmentally friendly design to safeguard our families and our future.

Daewoo. Quality you can rely on day in, day out.

FRS-2411S

721LT Aluminium

WxHxD (mm) 925x1808x878

- Automatic Ice & Water Dispenser •
- Homebar •
- Nano Silver Anti-Bacteria •
- LCD Display •
- No-frost 2Fan Cooling Air Flow •
- CFC Free •
- Safety Glass Shelves •
- Folding Wine Rack •
- Dairy Compartment •
- 4 Star Energy Rating •
- Low Noise Level •
- Radius Style •

Fresh design.

Daewoo's stylish range of refrigerators epitomises quality and technological leadership.

Nano Silver technology repels bacteria and other microbes, keeping food fresher, longer. Digitally controlled cooling cycles sense the environment to stabilise temperature.

Separate fans for freezer and refrigerator adapt more quickly to temperature variation. The air curtain system maintains temperature when the door is opened. And no frost and multi-net cooling systems control any temperature variation inside the freezer and refrigerator compartments.

Nano Silver:

Daewoo Electronics were the first in the world to develop Nano Silver technology for use in fridges. Cool air from the duct circulates environmentally friendly silver particles to every compartment of the fridge to reinforce antibiotic sterilisation.

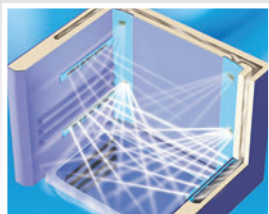

3D Cooling / No Frost System:

The first 3D cooling system in the world, one fan emits cool air from the left, right and rear of the fridge increasing the angle of air flow in the refrigerator to keep food fresher.

Multi Air Flow System:

A fan located in the freezer prevents food from being covered in a layer of frost. Cool air is distributed equally to keep the temperature the same throughout the freezer.

Built-In Style:

The FRS-U201CW/S & FRS-U20DCW/S side by side fridges feature 600mm cabinet depth allowing them to fit into most regular kitchens with no overhang.

Winerack:

Adjustable wine rack shelf allows storage of up to 4 bottles of wine or champagne. (FRS-U20DCW/S)
Single bottle folding wine rack. (FRS-2411S)

Automatic Ice & Water Dispenser:

At the touch of a button, select between crushed or cubed ice and cold filtered water whenever required. (FRS-U20DCW/S & FRS-2411S)

Homebar:

Access food and drinks without loss of temperature. (FRS-2411S)
