

Philips
DVD player with HDMI
and USB

HDMI 1080p

DivX Ultra

DVP3380

The best DVD player for your HDTV

with HDMI 1080p upscaling

Be impressed with this Philips DVD player with HDMI digital video and audio connection. Step into another home entertainment arena as you immerse yourself in High Definition video (720p/1080i/1080p).

Plays all your movies and music

- DivX Ultra Certified for enhanced playback of DivX videos
- Plays CD, (S) VCD, DVD, DVD+R/RW, DVD-R/RW
- Plays WMV, DivX, WMA, MP3 and HD JPEG photos
- Windows Media Video playback for movies from your PC

Brings audio and video to life

- HDMI digital output for easy connection with only one cable
- High definition JPEG playback for images in true resolution
- Screen Fit for optimal viewing every time

Connect and enjoy multiple sources

- Hi-Speed USB 2.0 Link plays video/music from USB flash drives
- Media Copy transfers photos and music to USB flash drives

Easy to set up and use

- One-touch MP3 creation directly from CDs onto USB sticks
- EasyLink controls all EasyLink products with a single remote

PHILIPS
sense and simplicity

Highlights

HDMI for simple AV connection

HDMI stands for High Definition Multimedia Interface. It is a direct digital connection that can carry digital HD video as well as digital multi-channel audio. By eliminating the conversion to analogue signals it delivers perfect picture and sound quality, completely free from noise. HDMI is fully backwards-compatible with DVI (Digital Video Interface).

DivX Ultra Certified

With DivX support, you can enjoy DivX encoded videos in the comfort of your living room. The DivX media format is an MPEG4-based video compression technology that enables you to save large files such as movies, trailers and music videos on media, e.g. CD-R/RW and DVD recordable discs. DivX Ultra merges DivX playback with great features including integrated subtitles, multiple audio languages, multiple tracks and menus into one convenient file format.

High definition JPEG playback

High definition JPEG playback lets you view your pictures on your television in resolutions as high as two megapixels. Now you can view your digital pictures in absolute clarity, without loss of quality or detail - and share them with friends and family in the comfort of your living room.

Hi-Speed USB 2.0 Link

The Universal Serial Bus or USB is a protocol standard that is conveniently used to link PCs, peripherals and consumer electronic equipment. Hi-Speed USB devices have a data transfer rate of up to 480 Mbps - up from the 12 Mbps of original USB devices. With Hi-Speed USB 2.0 Link, all you have to do is plug in your USB device, select the movie, music or photo and play away.

One-touch MP3 creation

Convert the contents of your favourite CDs to MP3 files on your Philips product and store

them directly on a thumb drive or on your portable media player through a USB cable. Enjoy the convenience of creating MP3 files right in your living room, without a PC and even while the CD is playing.

EasyLink

EasyLink lets you control multiple devices with one remote. It uses HDMI CEC industry-standard protocol to share functionality between devices through the HDMI cable. With one touch of a button, you can operate all your connected HDMI CEC-enabled equipment simultaneously. Functions like standby and play can now be carried out with absolute ease.

Media Copy

Share your photos and music with family and friends in your living room — and elsewhere. Simply copy the files onto your USB thumb drive and carry your favourites with you wherever you go.

Specifications
