PROMOPRNT™

mC-Print3™

Sleek, Compact, Connected

Always leading – always innovating, Star Micronics is proud to offer the mC-Print3™, a modern and connected 3-inch front-loading and front-exiting printer. With the mC-Print3's compact size and fast printing speed (250 mm/sec), it is the perfect addition to any retail, restaurant, pharmacy, or grocery store. It features a wide range of software support including Windows, iOS, Android, web, and cloud with multiple connectivity options such as USB, Lightning USB, Bluetooth, and Ethernet, and a main hub to connect peripherals including cash drawers, scanners, customer displays, and scales.

In addition, the mC-Print3 offers a paper-saving feature to reduce its environmental impact, and Print Flat Technology to ensure the quality of the printed receipt. The flat top design and splash-proof enclosure protect the printer from hazards such as water, debris, or insects when used in harsh environments or outdoors.

With the addition of Star Micronics Cloud Services with digital receipting, cloud promotion print management, and internet device management, the mC-Print3 affordably offers retailers and restaurateurs the next generation of POS printing including marketing and receipt tools for the omnichannel world.

For businesses looking for an affordable yet high-performance experience, Star Micronics offers the mCP30. This high-quality and cost-effective printer features the reliability Star Micronics products are known for, and is a simpler edition to the mC-Print3 family. With the removal of the USB hub which other mC-Print models include, the mCP30 simplifies the user experience for small and midsize businesses without compromising on power, speed, or sophistication.

Features:

- 3-Inch Thermal Printer — *Receipt Width of 80mm*
- Stylish and Compact Design
- High Speed — *250 mm/sec*
- Smart Receipt Issuing — *Print Flat Technology and Paper-Saving Function*
- Splash- and Insect-Proof
- Multiple Interfaces — *Traditional USB, Lightning USB, Bluetooth, LAN (Local, WebPRNT, and CloudPRNT)*
- Peripheral Device Connectivity — *Cash Drawer, Customer Display, 1D/2D Scanners*
- Wide Software Support — *Native OS, Web, and Cloud*
- Available Without USB Hub — *(mCP30)*
