

Embargo Dates	Product Announce 8/5 – Review Embargo 8/28 – Product Live/Presales 8/28
Intro Phrase / Tagline	The world's first fully integrated noise reduction mechanical gaming keyboard
Product Full Name/Title	Corsair Gaming STRAFE RGB Mechanical Gaming Keyboard, Ultra-Quiet, Backlit Multicolor LED, Cherry MX SILENT
25-Word Product Description	Strafe RGB MX Silent delivers ultra-quiet mechanical key switch technology with dynamic multicolor lighting control for professional-grade performance and virtually unlimited customization options.
50-Word Product Description	Strafe RGB MX Silent delivers ultra-quiet mechanical key switch performance and dynamic multicolor lighting control. It's up to 30% quieter than other mechanical gaming keyboards without sacrificing the speed, feel and responsiveness you need to win, and with virtually unlimited backlighting customization it looks as great as it plays.
100-Word Product Description	Strafe RGB MX Silent is designed for precision control, advanced customization, and ultra-quiet operation. 100% Cherry MX Silent key switches are German built with gold-crosspoint contacts, gold-plated closures, and pressure-resistant metal alloy springs for the precise control, feel, and responsiveness you need for a competitive advantage. Each key is individually addressable at your command for a virtually unlimited backlighting customization and sophisticated animations. The result is an ultra-quiet, professional grade keyboard that's up to 30% quieter than other mechanical gaming keyboards.

Product Features

- **100% Cherry MX Silent gaming key switches** – Exclusive patented noise reduction technology makes Strafe RGB MX Silent 30% quieter than other mechanical gaming keyboards.
- **Multi-color dynamic backlighting** - Brilliant RGB backlighting enhances the experience with virtually unlimited lighting adjustability
- **Fully programmable** - Reassign any key or set up the most extreme macros for advanced gaming
- **USB pass-through port** - Positioned for uninterrupted game play and ready for your mouse, wireless headset adapter, or your phone
- **Detachable soft-touch wrist rest** – provides the comfort you need for marathon gaming sessions.
- **Full spectrum color** - CUE Link connects your Corsair RGB keyboard, mouse, and headset to deliver the ultimate lighting experience
- **FPS/MOBA keycap sets** - Textured and contoured keycaps for maximum grip and enhanced feel
- **Gaming Grade Circuitry** - 100% anti-ghosting with 104 key rollover on USB ensures no matter how fast your play, all your keypresses register
- **Easy-access multimedia controls** – Make on-the-fly audio adjustments without interrupting your game.

Use the Corsair Utility Engine (CUE) to design your own lighting patterns and animations. Here's just a sample of what you can do:

Static lighting: Change any key on the keyboard to a color and brightness setting of your choice. You can create, save, and load custom patterns for your favorite games.

Color cycling: cycle through multiple colors with your choice of speed and color palettes. You can set either the whole keyboard to scroll, or just the keys you want.

Waves and ripples: customize the color palette, direction, duration, and velocity, and have the wave flow across the entire keyboard, or just the keys you want.

Reactive typing: set up single-key reactive typing, or create a multi-key ripple effect. You can choose single-layer lighting, where keys light up as you type, or multi-layer, and have the keys change color.

Specifications

Key Switches	Cherry MX SILENT Mechanical
Backlight	Individual lit and key-by-key programmability
LED Color	RGB
Macro keys	All Keys
USB Pass-through	Yes
Report Rate	Selectable 8ms, 4ms, 2ms, 1ms and BIOS mode
