

YAI-1

Conference Ensemble

Bring superior sound to your large conference room or boardroom with the YAI-1 Conference Ensemble, a professional USB audio solution that works straight out of the box using network wiring – no audio processing skills or AV expertise needed. With options allowing for 8 or 16 microphones and different microphone types, the YAI-1 line of products offers the right amount of flexibility for all use cases.

The Complete Conferencing Package

YAI-1 Standard Version

- Revolabs ExecutiveElite 8-channel wireless microphone system
- 8 Revolabs Elite wireless microphones
- Yamaha MRX7-D digital mixer
- 2 Yamaha VXL1-16P line array speaker systems (white or black)
- Yamaha SWR2100P-5G PoE switch
- Yamaha DCP1V4S digital control panel
- All required cables, connectors and wiring
- Pre-configured and installed firmware and software

YAI-1 "XL" Version

- 2 Revolabs Executive Elite 8-channel wireless microphone systems
- 16 Revolabs Elite wireless microphones
- 2 Microphone charging bases
- 2 Yamaha MRX7-D digital mixers
- 4 Yamaha VXL1-16P line array speaker systems (white or black)
- Yamaha SWR2311P-10G PoE switch
- Yamaha DCP1V4S digital control panel
- All required cables, connectors and wiring
- Pre-configured and installed firmware and software

Quality Audio Matched With Modern Design

Active line array speakers specifically designed for larger meeting and conference rooms provide 16 elements in each speaker to ensure a constant audio experience for all participants. Speakers are powered by the included network switch.

State of the Art Processing

High-quality audio performance is ensured by Yamaha's audio DSP (digital signal processing) expertise. Adaptive acoustic Echo cancellation allows full duplex capabilities and adjusts to the room audio dynamically. Noise reduction allows elimination of acoustic signals like air conditioning sounds. A Dugan mixer is built in to ensure that the output volume stays constant even when several microphones are active.

Perfect Integration

Setup is easy: the system arrives pre-programmed, with microphones already paired, and the USB connection works with your existing conferencing system and standard network wires. Also included are all cables, wiring and a detailed description for connections. The use of Dante for audio over IP allows for standard network cables to be used.

Microphone Flexibility

Designed to provide exceptional audio quality in the most demanding environments, Revolabs Elite wireless microphones provide users with flexibility for a wide range of conference applications. The YAI-1 "Boardroom" package includes Elite wireless gooseneck microphones, while the "Conference" package includes Elite wireless directional microphones. Some ensembles also include Elite wireless wearable microphones.

Available Options - YAI-1 Standard

YAI-1-BR-BK	Boardroom: 8 x 12" gooseneck microphones, black speakers
YAI-1-BR-WH	Boardroom: 8 x 12" gooseneck microphones, white speakers
YAI-1-BR-NS	Boardroom: 8 x 12" gooseneck microphones, no speakers (Requires separate amplifier and speaker)
YAI-1-CR-BK	Conference room: 7 x directional microphones, 1 wearable microphone, black speakers
YAI-1-CR-WH	Conference room: 7 x directional microphones, 1 wearable microphone, white speakers
YAI-1-CR-N	Conference room: 7 x directional microphones, 1 wearable microphone, no speakers (Requires separate amplifier and speaker)

Available Options - YAI-1 "XL"

YAI-1-BX-BK	Boardroom: 14 x 12" gooseneck microphones, 2 wearable microphones, black speakers
YAI-1-BX-WH	Boardroom: 14 x 12" gooseneck microphones, 2 wearable microphones, white speakers
YAI-1-BX-NS	Boardroom: 14 x 12" gooseneck microphones, 2 wearable microphones, no speakers (Requires separate amplifier and speaker)
YAI-1-CX-BK	Conference room: 14 x directional microphones, 2 wearable microphones, black speakers
YAI-1-CX-WH	Conference room: 14 x directional microphones, 2 wearable microphones, white speakers
YAI-1-CX-NS	Conference room: 14 x directional microphones, 2 wearable microphones, no speakers (Requires separate amplifier and speaker)
