

ENDOSCOPE USB

MT4095 is an Universal USB Inspection Endoscope. To check in hard-to-reach places such as sewer pipes, ventilation ducts, machine and motor interiors etc.

A long (5m) flexible connection cable will allow you to place a small inspection camera (5.5mm) in an inaccessible area's to get a view on your computer monitor or smartphone screen.

For a better viewing experience, the camera is equipped with 6 bright LEDs, with adjustable brightness on the cable.

OTG adapter from micro USB to USB A, allows you to use the endoscope on your computer and Android smartphone.

NOTICE. Your Android device must be equipped with a USB OTG (HOST USB) slot.

Package includes additional accessories: mirror, hook and magnet.
