

## ASUS ExpertBook L1 | L1500

# Everyday Performance. Total Flexibility.

ASUS ExpertBook L1 is tailored for business, making it the smart choice for ambitious startups, established education organizations and growing firms of all sizes. It boasts high performance, military-grade durability and extensive customization to empower your business. It's also engineered to confidently handle whatever tasks come your way, with a full set of I/O ports, speedy WiFi 6 and cutting-edge AI noise-canceling technology. ExpertBook L1 streamlines your workflow to keep you productive.

### Great all-around productivity

#### Everyday performance

ExpertBook L1 series models boast a contemporary design, replete with a rugged top shell, and effortlessly combine high performance with extensive customizations to empower every business.

#### Crystal-clear conferencing audio

Innovative ASUS AI noise-canceling technology enables superior calls. The AI Noise-Canceling Speaker feature filters out all ambient noise apart from human speech — so you'll hear what everyone else is saying.

#### Freewheeling mobility

ExpertBook L1 is surprisingly light for a business laptop, weighing as little as 1.75g, so it's comfortable to carry anywhere<sup>1</sup>.

#### Extensive connectivity

A business laptop demands extensive connectivity to handle diverse workloads. ASUS ExpertBook L1 is packed with a comprehensive selection of I/O ports, including full-size HDMI, USB Type-A, USB-C®, Ethernet and a microSD card slot.

### Commercial-grade durability and security

#### Military-grade construction

The chassis design combines additional structural enhancements to meet the rigors of daily use. These include a resilient aluminum-alloy upper cover, an internal keyboard bracket and protective foam protects the hard drive from bumps and shocks<sup>2</sup>.

#### One-touch, fingerprint login

A sensor integrated into the power button offers biometric security that's as easy as it is effective. All you need to do to switch on and log is press the power button — eliminating the need for difficult-to-remember passwords or PINs<sup>3</sup>.

#### Webcam shield for protecting privacy

A physical cover provides instant privacy when the lens is not in use. Just slide it open to make video calls or recordings, and back across when you're done<sup>3</sup>.

#### Trusted Platform Module (TPM) security

The embedded TPM 2.0 chip securely stores authentication information used by software, such as passwords or encryption keys, to protect important data and transactions — keeping the information away from the eyes of would-be attackers<sup>3</sup>.

#### Ergolift Hinge

The innovative ErgoLift hinge automatically tilts the keyboard to the most comfortable typing position.

#### 180° Lay-Flat Design

The extended 180-degree hinge is smooth, flexible and durable, and allows the display to be laid flat for fast collaboration.

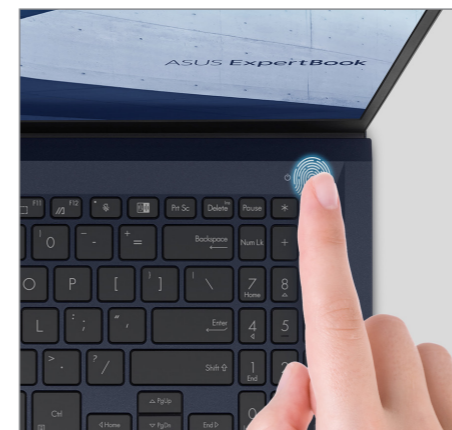

#### Backlit Keyboard

The backlit keyboard lets you type effortlessly in dark environments, from aircraft cabins to dim offices.
