Additional Features

**Windows SBS 2011 Features**

Designed and priced for small businesses, Windows Small Business Server 2011 Essentials and Standard deliver enterprise-class technologies for data backup and restore, e-mail, remote access, collaboration, file and printer sharing, internal Web sites, and support for mobile devices in one affordable and easy-to-use solution.

**Windows Small Business Server 2011 Essentials**
Ideal as a first server for small businesses with up to 25 users, Windows Small Business Server 2011 Essentials provides an integrated solution to help protect data, organize and access business information from virtually anywhere, support the line-of-business applications, and quickly connect to online services and cloud-based applications.

Supports: Up to 25 users

Benefits:
- Daily automatic backups of clients and servers
- Affordable and easy to deploy, use and maintain
- Organize and access files from virtually anywhere
- Effortlessly connects to online services in order to expand capabilities

**Windows Small Business Server 2011 Standard**
Ideal for small businesses with up to 75 users, Windows Small Business Server 2011 Standard delivers powerful technologies in an all-in-one solution. Windows SBS 2011 helps protect business information from loss and makes businesses more productive by providing features for e-mail, collaboration, Internet connectivity, internal Web sites, remote access, and file and printer sharing.

Supports: Up to 75 users

Benefits:
- Backup business data with restoration and recovery features
- Affordable and easy to deploy, use and maintain
- Enterprise quality functionality and productivity capabilities
- Organize and access files from virtually anywhere

**Premium Add-On**

- The ability to run a vast number of line-of-business applications on an additional server
- The capacity to make more informed business decisions with the rich analysis and reporting technologies
- A cost effective solution for a small business environment
Additional Features

**Insight Control Management**
Insight Control is a set of software tools designed to make managing your HP ProLiant and BladeSystem environments simple. The Insight Control Environment suites provide a single, integrated management interface in 1 package - for 1 installation & streamlined licensing. For more information on suites and standalone management products, visit: [www.hp.com/go/ice](http://www.hp.com/go/ice).

**Software Technical Support**
Software Technical Support for your HP Software, HP pre-installed third-party software is available from HP via multiple contact methods, including electronic media and telephone, for ninety (90) days from date of purchase. Software Technical Support includes assistance with:

- Answering your installation questions (how to, first steps, and prerequisites)
- Setting up and configuring the software (how-to and first steps). Excludes system optimization, customization and network configuration
- Interpreting system error messages
- Isolating system problems to software usage problems
- Obtaining support pack information or updates

Software technical support does NOT include assistance with:

- Generating or diagnosing user generated programs or source codes
- Installation of non-HP products

**Services**
HP Services offers a full portfolio of comprehensive services and cost-saving updates to help you enhance the performance and availability of software from HP and other leading vendors. Recommended service for Windows SBS 2011: HP 2-Hour 24x7 Software Technical Support

- Support for Windows SBS 2011 & Microsoft Client Applications

*NOTE: For more information, visit HP Care Pack Services at: [http://www.hp.com/services](http://www.hp.com/services).*

**Microsoft Software Assurance and purchasing additional licenses from HP**
Microsoft Software Assurance (SA) is a way for licensed customers to keep current with the latest, most innovative Microsoft products. Under the SA program, customers acquire the right to install any new release of a product covered in the agreement during the term of the coverage. OEM customers must purchase the SA within 90 days of the OS purchase.

To purchase additional licenses or Software Assurance from HP, visit the HP Software License Management Solutions at: [http://www.hp.com/software/slms](http://www.hp.com/software/slms).

**Windows Server Catalog Definition**
Microsoft has determined which HP ProLiant servers are compatible with Windows Server operating systems. HP ProLiant Servers listed in the Windows Server Catalog are compatible with Windows Server operating systems. For more information on HP’s Compatible and Support ProLiant Windows Servers please visit: [www.hp.com/go/wincert](http://www.hp.com/go/wincert)

#### Environment-friendly Products and Approach

**End-of-life Management and Recycling**

Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: [http://www.hp.com/go/green](http://www.hp.com/go/green). To recycle your product, please go to: [http://www.hp.com/go/green](http://www.hp.com/go/green) or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: [http://www.hp.com/go/green](http://www.hp.com/go/green). These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
