3 Install ink cartridges

1 Lift up the scanner unit.

Caution: Do not touch the flat, white cable.

2 Gently shake the Black (BK) ink cartridge. Do **not** shake Photo Black (PBK) or other ink cartridges.

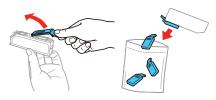

3 Unpack the ink cartridges.

Caution: Do not touch the areas shown below. Doing so may prevent normal operation and printing.

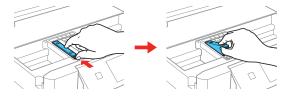

4 Remove the cap from each ink cartridge. Store the caps in the included plastic bag.

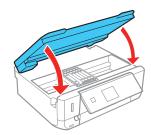

Note: Save the caps and use them to recap the ink cartridges after removing them for storage or disposal.

Insert the cartridges at an angle in the holder for each color. Press each cartridge down until it clicks.

6 Lower the scanner unit.

7 The printer starts charging the ink. Ink charging takes approximately 7 minutes. When you see a completion message on the printer's LCD screen, charging is complete.

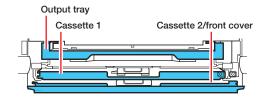

Caution: Don't turn off the printer or raise the scanner unit while the printer is charging or you'll waste ink.

Note:

- The printer is designed for use with Epson® cartridges only, not third-party cartridges or ink.
- The cartridges included with the printer are designed for printer set up and not for resale. After some ink is used for charging, the rest is available for printing.
