Humanscale® | Better Design,  
HEALTHCARE | Better Care

# Accessory Solutions for ViewPoint and TouchPoint Products

The global leader in healthcare ergonomics, Humanscale Healthcare has identified solutions to optimize the caregiver workflow. The ViewPoint wall stations and TouchPoint mobile technology carts were created to improve the efficiency and effectiveness of caregivers in the non-stop healthcare setting.

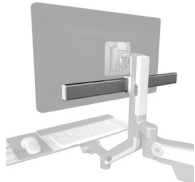

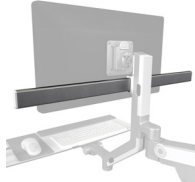

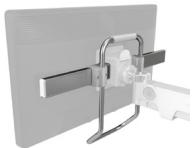

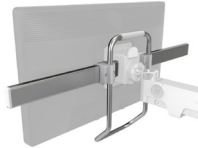

The ViewPoint and TouchPoint accessory lines are designed to further streamline the everyday workflow. Each accessory ensures caregivers are able to balance the demands of interacting with both technology and patients, while also making regularly used items instantly accessible—helping caregivers to prioritize their time more effectively and efficiently.

# ViewPoint V6 Accessories

Humanscale's ViewPoint accessories line optimizes our range of technology wall stations to streamline workflow requirements and enhance caregiver performance. Three mounting options and two rail lengths are available, making the accessories well-suited for nearly any application.

# TouchPoint T7 Storage Drawer Configurations

Expand the T7's storage capacity to make everyday workflows more efficient. The cart saves time and effort for caregivers by storing frequently accessed items within easy reach. The T7 cart can be equipped with up to 5 drawers for easy use and storage. These drawers offer a range of functionality—from single drawers with lock and key security, to 5 individual drawers, each equipped with a digital lock.
