SAMSUNG Galaxy S6

Unlock business opportunities with Samsung Galaxy unlocked smartphones

Be ready for whatever the workday brings with the unlocked Samsung Galaxy S6. With freedom to choose your carrier and plan, along with next-generation power and performance, the Samsung Galaxy S6 delivers the productivity, multitasking and security protection your team needs today and tomorrow. Fuel productivity with PC-like multitasking tools such as Multi Window and optimized business applications. And protect sensitive company data with defense-grade Samsung Knox™ security. With the Samsung Galaxy S6, your next smartphone is one that's ready to work harder for your enterprise.

Unlocked advantages

With the unlocked Galaxy S6, you have the freedom to choose the carrier and plan that work best for your employees.¹ With fewer different smartphone models required, IT is greatly simplified. And they're ideal for Wi-Fi only environments where no carrier is necessary, combining the functionality of a tablet with the portability of a hand-held device.

Work that impresses

Review presentations. Examine design renderings. Display product videos. Your team will always have a premium view on the 5.1" Quad HD Super AMOLED display, housed in a sleek, stunning metal and glass design your employees will love. A powerful, high-resolution screen delivers a sharp, vivid picture that brings greater detail to everything on screen.

Enhanced security

Defense-grade Samsung Knox security includes a container that partitions users' personal data and your organization's sensitive data,² to satisfy IT policy requirements. The built-in fingerprint scanner coupled with a password or PIN further protects sensitive information.

The speed you need for business

The world's first 14nm smartphone processor and a more accurate touch screen help your team seamlessly toggle between apps and handle information as quickly as your business demands.

Power when you need it most

Maximize battery life and keep your team connected with Ultra Power Saving Mode³. They can text, receive calls and browse the web for up to 24 hours, even with a low battery. Adaptive Fast Charging⁴ generates up to four hours of battery life in just 10 minutes, and built-in wireless charging⁵ provides an additional power option.
