Versatility. Performance. Dependability.

And don't forget brightness... at 6000 ANSI lumens the Christie LX605 is the ideal projector for a wide variety of medium to large venue presentations. The Christie LX605 has been designed for easy set-up, high performance, and use in a myriad of installation applications since it is capable of accepting a wide range of sources.

A new four-corner geometry correction tool, 3D Keystone™ technology, puts professional capabilities at your fingertips; quickly overcome installation challenges that can not be corrected by standard digital keystone adjustments. The LX605 has a center lens design with motorized lens shift for easy set-up and ships with a standard lens. A suite of four bayonet style lenses are available options.

For quality and dependability the Christie LX605 offers the benefits of long-life inorganic 3LCD technology and 10-bit video processing. These inorganic panels have been designed for improved lifetime performance over conventional 3LCD panels. With a 1000:1 contrast ratio and 10-bit video processing, the Christie LX605 produces natural, smooth color tone to ensure picture stability and flawless video playback... a quality image every time.

With all these great features and Christie's known quality and dependability, the Christie LX605 is sure to become your new LCD standard.
