The InTouch 32 Secure Tablet Locker was developed directly from our customers' requests to individually manage their 1:1 tablet programs and keep the devices safe and secure within the classroom. The large capacity of the IT32 allows instructors to more easily manage the entire tablet inventory in one location. Careful consideration is given to cord management by having a charging plug in front of every bay for easy tablet organization.

The IT32 Locker secures tablets with Spectrum's custom 2-point double-bolt lock. There are no plastic structure pieces to be pried open – the IT32 exterior consists of 16 gauge steel. Further protective measures can be taken by bolting the IT32 to either a wall or worksurface. Safety measures are designed into the electrical system as well with all outlets located in a separately locked module.

For the ultimate in 1:1 device security and organization, look no further than Spectrum's InTouch32 Secure Tablet Locker!

Warranty is void if product is not used for its intended purpose or subjected to an unusual application, multiple-shift use, alteration, accident, abuse or abnormal wear and tear. Representations of colors on-line and in printed materials are meant to be a close reference to the actual colors but not an exact match. Slight variations in color and texture of wood stains, powder coating, laminates, fabrics and other materials are normal in different manufacturing lots; as such these variations are not considered defects.

DESIGNED FOR INDOOR USE ONLY – Unless specifically stated in the product specifications, Spectrum's products have been designed and constructed for indoor use only. Moving or using outdoors, or on excessively rough surfaces, may cause damage to the products and will void the warranty. If an outdoor application is desired please contact us to discuss potential custom design solutions.

The warranty, as stated above, supersedes any previous warranties and is effective as of 9/1/2010
