### What you need to know about Locking IEC Power Cords and Receptacles....

Are the locking cords compatible with non-locking receptacles?

- Yes, the locking cords are compatible, although the locking feature will not engage upon connection.

Is there a special tool required to remove the cords from locking receptacles?

- No tools are required to disengage the locking feature and remove the plug from the locking receptacle.

Does this locking IEC system increase cost or lead time of orders?

- No, this locking IEC system is standard in all the APC AP8000 series Rack PDUs

Is the locking feature compatible with other Rack PDUs?

- The locking feature is an exclusive feature to APC AP8000 series Rack PDUs
