Short description

Tablet and Laptop in One, Intel® Celeron® processor N2910, Intel® HD graphics, Windows 8.1, 29.5 cm /11.6" full HD multitouch IPS display, 64 GB flash memory and 500 GB HDD, 2 GB DDR3L RAM memory, Dolby® Advanced Audio™, up to 10 hours battery life

Long description

The MEDION® AKOYA® P2211T is more than just a notebook. The new multimode touch notebook from MEDION combines the best features of a notebook and a tablet. Use the power of the notebook for demanding multimedia, office and Internet applications or enjoy the freedom of a tablet for pure entertainment purposes - simply separate the touch display and you have a tablet with a full version of Windows in your hands. This enables you to also use your usual programmes for office and multimedia tasks even in tablet mode.

The multimode notebook not only stands out due to its attractive design but also thanks to its impressive range of features: The powerful Intel® Celeron® processor N2920 impresses with lots of power and quick reactions. The processor is backed up by a 500 GB hard drive, a 64 GB flash memory and the extremely efficient 2 GB DDR3L RAM memory. The battery life also leaves no wish unfulfilled - you can enjoy a battery life of up to 10 hours in notebook mode. The 29.5 cm/11.6" multitouch IPS display stands out due to its brilliant resolution in full HD and its convenient size. Thanks to the improved brightness setting and large viewing angle, photos come to life with vibrant colours. While e-mails are easy to answer and games even more fun. Enjoy first-class sound in both notebook or tablet mode with 2 loudspeakers and Dolby® Advanced Audio™. The WLAN n-standard technology provides a high-speed wireless connection to the Internet. Enjoy

MEDION AKOYA P2211T 2-1 Laptop/Tablet (MD98602)

the freedom to surf, write e-mails or chat anywhere you want. The integrated HD webcam with microphone is ideal for video chats with your friends and family. Enjoy the highest level of flexibility with the new multimode touch notebook that can be transformed into a tablet in no time at all. Notebook and Tablet in One Enjoy the freedom of a tablet and the performance of a notebook with a second battery, hard drive and more connections. Whatever you need, you now have everything to hand. Windows 8.1 Its more productive, more personal and offers even greater choice The new Windows operating system fits in perfectly with your individual requirements. New options for customising your start screen: with contacts, apps and websites. Work more quickly and easily thanks to the start button and optimised search function. 29.5 cm/11.6" multitouch widescreen IPS display with a full HD resolution Thanks to the improved brightness setting and large viewing angle, photos come to life with vibrant colours, e-mails are easy to answer and games are even more enjoyable. Intel® Celeron® processor N2910 (1.6 GHz, 2MB Intel® Smart Cache) A notebook with an Intel® Celeron® N2910 quad-core processor provides you with first-class performance for your daily requirements. Whether you are creating or editing texts, spreadsheets or presentations, backing up your photos and videos and enjoying them in brilliant quality or conveniently completing all of your online tasks. Internal memory – 64 GB flash memory and 500 GB HDD You will find space for videos, photos, music, apps, documents and much more on the internal memory (64 GB tablet unit + 500 GB base unit). (expandable with microSD / SDHC / SDXC memory cards.) 2 GB DDR3L RAM memory With high-speed, power-saving memory technology Long battery life Enjoy entertainment everywhere. The two li-polymer batteries provide power for up to 10 hours¹ (tablet unit + base unit) - perfect for trips, seminars and hours of surfing the Internet. ¹ Dependent on the type of use.
