

## Mobile Recording

Sennheiser and Apogee have partnered to offer a personal recording solution that combines superior, clip-on microphone technology with legendary digital audio conversion.

Designed to deliver incredible quality in a compact and easy to use system, ClipMic digital sets a new standard in speech and vocal recording, empowering anyone to make great audio recordings on their iPhone, iPad or iPod touch.

## Apogee Apps for ClipMic digital

MetaRecorder

Maestro

Apogee's MetaRecorder is a two-channel audio recording app made specifically for Sennheiser's clip-on digital microphones. The app is easy to use and offers professional quality, 24 bit/96 kHz audio recording as well as metadata features that make it simple to edit your video. You can also use MetaRecorder to adjust microphone input gain.

Apogee's Maestro App offers full control of ClipMic digital if you are using a video recording app like the Camera app that comes on your iOS device.

MetaRecorder and Maestro offer basic presets that let you optimize the sound of your ClipMic digital microphone to achieve the desired result for any performance or environment.

Download Apogee MetaRecorder or Apogee Maestro from the App Store.
