

2m Thunderbolt 3 (20Gbps) USB-C Cable - Thunderbolt, USB, and DisplayPort Compatible

StarTech ID: TBLT3MM2M

This Thunderbolt™ 3 (20Gbps) cable lets you connect to any Thunderbolt USB-C port to deliver video and data to your Thunderbolt, USB, and DisplayPort devices. Plus, the cable can provide power for charging your devices, and you can link up to six Thunderbolt 3 devices as part of a daisy-chained connection.

Faster data transfers

This cable supports data transfer rates of 20Gbps when connected to a Thunderbolt 3 device, so you can transfer photo and video files at twice the speed of a USB 3.1 Gen 2 (10Gbps) cable. For example, you can transfer a 4K movie in less than a minute. When connected to a USB 3.1 device, the cable supports data transfer rates of 10Gbps.

Full 4K video

The cable supports full 4K 60Hz video and DisplayPort 1.2, and is compatible with existing DisplayPort displays. It's perfect for connecting your docking station or laptop to a monitor with astonishing resolution, contrast, and color depth for amazing detail.

Versatile power delivery

This Thunderbolt 3 cable delivers up to 100W of power for charging a laptop or powering a display, and 15W for bus-powered devices such as a hard drive enclosure.

Thunderbolt networking

The cable gives you an easy way to bridge multiple Thunderbolt 3 enabled laptops for peer-to-peer 10Gb networking. It's perfect for setting up small workgroups and sharing peripherals such as printers and storage. You can also connect two Thunderbolt 3 laptops together for PC migrations.

A USB 3.1 cable alternative for longer connections

Thunderbolt 3 cables allow connections up to 2m at full speed, while USB 3.1 cables allow a maximum of 1m. You can use a Thunderbolt 3 cable with a USB 3.1 USB-C port for 2m connections.

The TBLT3MM2M is backed by a 2-year warranty.
