

Thunderbolt 3 to Thunderbolt Adapter

StarTech ID: TBT3TBTADAP

With this adapter, you can connect newer Thunderbolt™ 3 computers or laptops to legacy Thunderbolt devices, such as external hard drives, displays, and older Thunderbolt capable Mac computers.

Because this adapter is backward compatible, you can connect to first-generation Thunderbolt devices at 10Gbps speed. With Thunderbolt 2 devices, you can connect at 20Gbps. The adapter supports bi-directional data transfers and simultaneous power delivery for bus-powered devices.

You can also set up 10Gbps peer-to-peer networking between older Thunderbolt laptops and newer Thunderbolt laptops. This is perfect for setting up small workgroups and sharing peripherals such as printers and storage or quickly migrating data to a new computer.

The TBT3TBTADAP is backed by a 2-year warranty for guaranteed reliability.

Applications

- Connect first-generation Thunderbolt and Thunderbolt 2 devices to newer Thunderbolt 3 computers
- Peer-to-peer networking between older Thunderbolt laptops and newer Thunderbolt laptops

Features

- Cost-effective solution for connecting legacy Thunderbolt peripherals to newer Thunderbolt 3 laptops or computers
- Compatible with first-generation Thunderbolt and Thunderbolt 2 specifications
- Supports Power Over Cable (POC) for bus-powered Thunderbolt devices

Technical Specifications

Warranty	2 Years
Cable Jacket Type	PVC - Polyvinyl Chloride
Cable Shield Type	Aluminum-Mylar Foil with Braid
Connector Plating	Nickel
Connector A	1 - Thunderbolt™ 3 USB-C (24-pin) Male
Connector B	1 - Thunderbolt™ 2 (20 pin) Female
Color	Black
Product Weight	1.4 oz [40 g]
Shipping (Package) Weight	1.4 oz [40 g]
Included in Package	1 - Thunderbolt™ 3 to Thunderbolt Adapter
